INDEPENDENT AUDITOR'S REPORT

The Stockholders and the Board of Directors
Philippines First Insurance Company, Inc.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Philippines First Insurance Company, Inc. (the Company), which comprise the statements of financial position as at December 31, 2025 and 2024, and the statements of income, statements of comprehensive income, statements of changes in equity and statements of cash flows for the years then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2025 and 2024, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Matter

In our auditor's report dated August 4, 2025, our opinion on the 2024 financial statements was qualified due to the departures from PFRS Accounting Standards relating to (1) the recognition and measurement of commission expense and deferred acquisition costs, and (2) the reclassification of certain financial assets.

As discussed in Note 2 to the financial statements, the Company did not accrue commission expense and did not apply the 24th method of computation in determining the portion of commission expense that should be deferred at the end of the reporting period. Instead, commission expense was recognized on a cash basis, wherein commission expense was recorded only upon payment to agents. Accordingly, such accounting treatment was not in accordance with PFRS Accounting Standards.

In addition, in 2019, the Company reclassified certain debt and equity instruments from Fair Value Through Profit or Loss (FVTPL) to Fair Value through Other Comprehensive Income (FVOCI) without a change in the business model for managing those financial assets. Under PFRS 9 – Financial Instruments, in certain rare circumstances, an entity may reclassify its financial assets between amortized cost, FVOCI and FVTPL categories when, and only when, an entity changes its business model for managing the financial assets. Accordingly, the reclassification was not in accordance with PFRS Accounting Standards.

During our 2025 audit, the Company made the necessary adjustments and resolved these matters through the retrospective correction of the related prior period misstatements in the 2025 financial statements. Accordingly, our opinion on the financial statements as of and for the period ended December 31, 2024 and statement of financial position as at January 1, 2024, as presented herein, have been updated to reflect an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on the Supplementary Information Required Under Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary information required under Revenue Regulations 15-2010 in Note 34 is presented for purposes of filing with the Bureau of Internal Revenue and is not a required part of the basic financial statements. Such information is the responsibility of the management of Philippines First Insurance Company, Inc. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

1. Corporate Information

Philippines First Insurance Company, Inc. (the Company) was incorporated in the Philippines to engage in the business and operation of all kinds of insurance, reinsurance, insurance on buildings, automobiles, cars and/or other motor vehicles, goods and merchandise goods in transit, goods in storage, fire insurance, earthquakes, insurance against accidents and all other forms of undertaking to indemnify any person against loss, damage or liability arising from unknown or contingent events, except life insurance.

The Company was registered with the Securities and Exchange Commission (SEC) on February 24, 1954. On January 9, 2004, it was approved by at least a majority of the Board of Directors (BOD) and the stockholders owning and representing at least two-thirds (2/3) of the outstanding capital stock that the Articles of Incorporation will be amended to extend the existence of the Company to another fifty (50) years from its original expiry date. The Philippine SEC approved the amended Articles of Incorporation on May 21, 2004.

On February 20, 2019, Republic Act No. 11232, otherwise known as the “Revised Corporation Code of the Philippines” or “RCC”, was signed into law. The RCC took effect on February 23, 2019. The corporate term of a corporation with certificate of incorporation issued prior to the effectivity of the RCC and which continue to exist, shall be deemed perpetual upon the effectivity of the RCC, without any action on the part of the corporation. As of February 23, 2019, the Company is deemed to have selected a perpetual term.

The registered office address of the Company is 7th Floor, STI Holdings Center, 6764 Ayala Avenue, Makati City.

The accompanying financial statements were approved and authorized for issue by the BOD of the Company on August 6, 2026.

2. Material Accounting Policy Information

Basis of Preparation

The financial statements have been prepared using the historical cost basis, except for financial assets at fair value through profit or loss (FVTPL), financial assets at fair value through other comprehensive income (FVOCI) and investment properties which have been measured at fair value.

The accompanying financial statements are presented in Philippine Peso (₱), which is also the Company’s functional currency. All amounts are rounded to the nearest peso values, unless otherwise indicated.

Statement of Compliance

The accompanying financial statements of the Company have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

New Standards, Interpretations and Amendments
The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of amendments effective in 2025. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these amendments did not have an impact on the financial statements of the Company.

- Amendments to PAS 21, *Lack of Exchangeability*

  The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

  The amendments are effective for annual reporting periods beginning on or after January 1, 2025. Earlier adoption is permitted and that fact must be disclosed. When applying the amendments, an entity cannot restate comparative information.

Standards Issued but Not Yet Effective
Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Company does not expect that the future adoption of the said pronouncements will have a significant impact on its financial statements. The Company intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2026
- Amendments to Illustrative Examples on PFRS 7, PFRS 18, PAS 1, PAS 8, PAS 26 and PAS 37, *Disclosures about Uncertainties in the Financial Statements*
- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*
- Amendments to PFRS 9 and PFRS 7, *Contracts Referencing Nature-dependent Electricity*
- Annual Improvements to PFRS Accounting Standards—Volume 11
  - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
  - Amendments to PFRS 7, *Gain or Loss on Derecognition*
  - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities* and *Transaction Price*
  - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
  - Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027
- PFRS 17, *Insurance Contracts*
  PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

  The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.

The core of PFRS 17 is the general model, which is based on the following building blocks for each group of insurance contracts: (a) fulfilment cash flows and (b) a contractual service margin or CSM (i.e., unearned profit). This is supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

The Company does not intend to early adopt PFRS 17. The Company continues its assessment of the implications of this standard and expects that it will have a significant impact on the Company's financial statements as the requirements of the new standard are complex and requires application of significant judgments and estimates. Specifically, the establishment of CSM (or the unearned profits) on in-force insurance contracts will result in adjustments in insurance contract liabilities and corresponding movements in equity upon transition. Subsequently, the Company expects changes in the timing and recognition of the profits via amortization of the CSM into income as services are provided. The Company is continuously assessing the potential impact of all other changes including accounting policy choices available under PFRS 17 on how insurance contract liabilities are measured and the impact on presentation and disclosure of the financial results in the financial statements.

- PFRS 18, *Presentation and Disclosure in Financial Statements*

  The standard replaces PAS 1, *Presentation of Financial Statements*, and responds to investors' demand for better information about companies' financial performance. The new requirements include:

  - Required totals, subtotals and new categories in the statement of profit or loss
  - Disclosure of management-defined performance measures
  - Guidance on aggregation and disaggregation

- PFRS 19, *Subsidiaries without Public Accountability*
- Amendments to PAS 21, *Translation to a Hyperinflationary Presentation Currency*

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

<u>Restatement of Prior-Year Financial Statements</u>
During 2025, management reassessed certain accounting treatments previously applied by the Company and identified material prior period errors relating to (1) the recognition of commission expense and deferred acquisition costs and (2) the classification of certain financial assets. These matters were previously identified as departures from PFRS Accounting Standards.

The Company previously recognized commission expense on a cash basis rather than applying the 24th method prescribed under Insurance Commission Circular Letter No. 2018-18. In addition, certain debt and equity investments were reclassified from FVTPL to FVOCI without a corresponding change in the Company's business model for managing those financial assets, which is inconsistent with the requirements of PFRS 9.

In accordance with PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors*, management retrospectively corrected the material prior period errors by restating the comparative information presented for prior periods and the affected opening balances.

The effects of the restatement on the Company's statement of financial position as at December 31, 2024, statement of income for the year then ended, and opening statement of financial position as at January 1, 2024 are presented below. The restatement did not have an impact on the statements of cash flows.

	As at December 31, 2024		
	As previously reported	Prior period adjustment	As restated
Statement of Financial Position			
Financial assets at fair value through profit or loss	₱264,270,769	₱145,026,738	₱409,297,507
Financial assets at fair value through other comprehensive income	1,890,096,575	(145,026,737)	1,745,069,838
Deferred acquisition cost	–	33,980,277	33,980,277
Accounts payable and accrued expenses	130,720,433	3,157,987	133,878,420
Revaluation reserve on financial assets at FVOCI	894,363,467	(9,974,520)	884,388,947
Retained earnings	1,551,850,407	40,796,809	1,592,647,216

	For year ended December 31, 2024		
	As previously reported	Prior period adjustment	As restated
Statement of Income			
Investment income - net	₱125,450,773	₱39,627,097	₱165,077,870
General expenses	108,798,900	8,026,554	116,825,454
Net income	113,450,549	31,600,544	145,051,093
Statement of Comprehensive Income			
Net changes in the revaluation reserves on debt financial assets at FVOCI	₱193,001,459	(₱27,677,221)	₱165,324,238
Net changes in the revaluation reserves on equity financial assets at FVOCI	138,660,290	(11,949,875)	126,710,415
Total other comprehensive income	325,326,471	(39,627,096)	285,699,375

	As at January 1, 2024		
	As previously reported	Prior period adjustment	As restated
Statement of Financial Position			
Financial assets at fair value through profit or loss	₱230,676,864	₱111,827,448	₱342,504,312
Financial assets at fair value through other comprehensive income	1,610,685,535	(111,827,448)	1,498,858,087
Deferred acquisition cost	–	32,047,395	32,047,395
Accounts payable and accrued expenses	169,966,624	(6,801,447)	163,165,177
Revaluation reserve on financial assets at FVOCI	562,701,718	29,652,576	592,354,294
Retained earnings	1,438,399,857	9,196,266	1,447,596,123

Use of Estimates, Assumptions and Judgments
The preparation of the financial statements necessitates the use of estimates, assumptions and judgments. These estimates and assumptions affect the reported amounts of assets and liabilities and contingent liabilities at the end of the reporting period as well as affecting the reported income and expenses for the year. Although the estimates are based on management's best knowledge and judgment of current facts as at the end of the reporting period, the actual outcome may differ from these estimates, possibly significantly.

Foreign Currency Transactions and Translations
Transactions in foreign currencies are initially recorded at the functional currency rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency rate of exchange ruling at the end of the reporting period. Nonmonetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction and are not subsequently restated. All foreign exchange differences are recognized in statement of income, except where it relates to equity securities classified as financial assets at FVOCI where gains or losses are recognized in other comprehensive income.

Product Classification
Insurance contracts are those contracts where the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk, by comparing benefits paid with benefits payable if the insured event did not occur. Insurance contracts can also transfer financial risk.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its lifetime, even of the insurance risk reduces significantly during this period, unless all rights and obligations are extinguished or has expired.

Fair Value Measurement
The Company measures financial instruments, such as financial assets at FVTPL and financial assets at FVOCI, at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level of input that is significant to the fair value measurement as a whole:

- *Level 1* - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- *Level 2* - Valuation techniques for which the lowest level of input that is significant to the fair value measurement is directly or indirectly observable
- *Level 3* - Valuation techniques for which the lowest level of input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statement on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level of input that is significant to the fair value measurement as a whole) and at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Cash and Cash Equivalents
Cash includes cash on hand and in banks. Cash equivalents are short-term, highly-liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from dates of placement and are subject to an insignificant risk of changes in value.

Short-term Investments
Short term investments are short-term placements with maturities of more than three months but less than one year from the date of acquisition. These earn interest at the respective short-term investment rates.

Insurance Receivables
Due from brokers and agents and due from ceding companies are recognized on policy inception dates and measured on initial recognition at the fair value of the consideration receivable for the period of coverage.

Reinsurance recoverable on paid losses is recognized upon settlement of the cost of claims incurred with coverage with reinsurance companies and measured in a manner consistent with the reinsurance contract.

Subsequent to initial recognition, insurance receivables are measured at amortized cost less allowance for impairment. The carrying value of insurance receivables is reviewed for impairment using the estimated credit loss (ECL) model, with the impairment loss recorded in the statements of income.

Insurance receivables are derecognized under the derecognition criteria of financial assets.

Financial Instruments - Initial Recognition and Subsequent Measurement

Date of recognition

Financial instruments are recognized in the statement of financial position when the Company becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the trade date.

Initial recognition of financial instruments

Financial instruments are recognized initially at fair value of the consideration given (in case of an asset) or received (in the case of a liability). Except for financial instruments at FVTPL, the initial measurement of financial assets includes transaction costs. The Company classifies its financial assets in the following categories: financial assets at FVTPL, financial assets at FVOCI, loans and receivables and hold-to-collect (HTC) investments. The Company classifies its financial liabilities into financial liabilities at FVTPL and other liabilities. The classification depends on the purpose for which the investments were acquired and whether they are quoted in an active market. Management determines the classification of its investments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every end of the reporting period.

'Day 1' difference

Where the transaction price in a non-active market is different from the fair value from other observable current market transactions in the same instrument or computed based on a valuation technique whose variables include only data from observable markets, the Company recognizes the difference between the transaction price and the fair value (a 'Day 1' difference) in the statements of income, unless it qualifies for recognition as some other type of asset or liability. In cases where fair value is determined using data which are not observable from the market, the difference between the transaction price and the model value is only recognized in the statements of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the amount of 'Day 1' difference.

Classification and Measurement of Financial Assets

The Company classifies its financial assets into the following categories: financial assets at FVTPL, financial assets at FVOCI, HTC investments, and loans and receivables. The Company classifies its financial liabilities into financial liabilities at FVTPL and other financial liabilities at cost or amortized cost. The classification and measurement of financial assets is driven by the contractual cash flow characteristics of the financial assets and the Company's business model for managing the financial assets.

Contractual cash flows characteristics

As part of its classification process, the Company assesses the contractual terms of financial assets to identify whether they meet the 'solely payments of principal and interest' (SPPI) test. 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (e.g. if there are repayments of principal or amortization of the premium or discount).

Business model assessment

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective. The Company's business model is not assessed on an instrument-by-instrument basis, but a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel

- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

The Company's measurement categories are described below:

a. Financial Assets at FVTPL
Debt instruments that neither meet the amortized cost nor the FVOCI criteria, or that meet the criteria but the Company has chosen to designate as at FVTPL at initial recognition, are classified as financial assets at FVTPL.

Equity investments are classified as financial assets at FVTPL, unless the Company designates an equity investment that is not held for trading as at FVOCI at initial recognition. The Company's financial assets at FVTPL include investment in mutual funds and unquoted equity securities which are held for trading purposes.

b. Financial Assets at Amortized Cost
The Company measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets at amortized cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Interest calculated using effective interest method is recognized in statement of income. Gains or losses are recognized in statement of income when the asset is derecognized, modified or impaired.

The Company may irrevocably elect at initial recognition to classify a financial asset that meets the amortized cost criteria above as at FVTPL if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortized cost. As of December 31, 2025 and 2024, the Company has not made such designation.

This accounting policy applies primarily to the Company's 'Cash and cash equivalents', 'Short-term investments', 'Insurance receivables', 'Hold-to-collect investments' and 'Loans and Receivables'.

c. Financial Assets at FVOCI - Debt Investments
The Company applies the new category under PFRS 9 of debt instruments measured at FVOCI when both of the following conditions are met:

- the instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets, and
- the contractual terms of the financial asset meet the SPPI test.

FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value being recognized in other comprehensive income. Interest income and foreign exchange gains and losses are recognized in statement of income in the same manner as for financial assets measured at amortized cost. On derecognition, cumulative gains or losses previously recognized in other comprehensive income are reclassified from other comprehensive income to profit or loss.

The Company's debt instruments at FVOCI includes investments in quoted and unquoted debt instruments.

d. Financial Assets at FVOCI - Equity Investments
At initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI; however, such designation is not permitted if the equity investment is held by the Company for trading.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value are recognized in other comprehensive income and accumulated in 'Revaluation reserves on financial assets at FVOCI' in the statements of financial position. When the asset is disposed of, the cumulative gain or loss previously recognized in the Revaluation reserves on financial assets at FVOCI account is not reclassified to profit or loss, but is reclassified directly to 'Retained earnings' account or other appropriate equity account. Any dividends earned on holding these equity instruments are recognized in profit or loss under 'Other income' accounts.

The Company elected to classify irrevocably all its listed and non-listed equity investments under this category.

e. Other Financial Liabilities
Issued financial instruments or their components, which are not designated at FVTPL, are classified as other financial liabilities where the substance of the contractual arrangement results in the Company having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

Financial liabilities are initially recognized at the fair value of consideration received, less any directly attributable transaction costs. After initial measurement, other financial liabilities are measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on the acquisition and fees or costs that are an integral part of the EIR.

This accounting policy applies primarily to the Company's 'Insurance payables', and 'Accounts payable and accrued expenses'.

Reclassifications of financial instruments
The Company reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. With the exception of certain debt and equity investment reclassified to FVOCI which was previously classified as FVTPL. Reclassifications shall be applied prospectively by the Company and any previously recognized gains, losses or interest shall not be restated. The Company does not reclassify its financial liabilities.

The Company is required to reclassify the following financial assets:

- From amortized cost to FVTPL if the objective of the business model changes so that the amortized cost criteria are no longer met; and
- From FVTPL to amortized cost if the objective of the business model changes so that the amortized cost criteria start to be met and the instrument's contractual model changes so that the fair value criteria are no longer met but the amortized cost criteria is still met and the instrument's contractual cash flows meet the amortized cost criteria.

Offsetting Financial Instruments
Financial assets and liabilities are offset and the net amount reported in the statement of financial position if, and only if, there is a currently enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liability simultaneously.

Impairment of Financial Assets
The Company recognizes an allowance for expected credit losses (ECLs) for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original EIR. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognized in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For insurance receivables, the Company applies a simplified approach in calculating ECLs. Therefore, the Company does not track changes in credit risk, but instead, recognizes a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For cash and cash equivalents and short-term investments, the Company applies the low credit risk simplification. The probability of default and loss given defaults are publicly available and are considered to be low credit risk investments.

The Company's debt instrument at FVOCI comprise of quoted and unquoted bonds. It is the Company's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Company uses the ratings from Moody's to determine whether the debt instrument has significantly increased in credit risk and to estimate ECLs.

Definition of "default"
The Company classifies a financial instrument as in default when it is credit impaired, or becomes past due on its contractual payments for more than 90 days. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

Write-off policy
The Company writes-off its financial assets when it has been established that all efforts to collect and recover the loss has been exhausted. This may include other party being insolvent, deceased or the obligation being unenforceable.

<u>Derecognition of Financial Assets and Liabilities</u>
Financial assets
A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognized where:

- the right to receive cash flows from the asset have expired;
- the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass-through' arrangement; or
- the Company has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Where the Company has transferred its right to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Financial liabilities
A financial liability is derecognized when the obligation under the liability is discharged or cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statements of income.

Deferred Acquisition Costs
Deferred acquisition costs represent commissions and other direct and incremental costs incurred in acquiring insurance contracts. These costs are deferred and amortized using the 24th method prescribed under Insurance Commission Circular Letter No. 2018-18, which approximates the earning pattern of the related premiums over the coverage period. Amortization is recognized in profit or loss as the related premiums are earned. The carrying amount of deferred acquisition costs is assessed for recoverability at each reporting date and written down when necessary.

Reinsurance
The Company cedes insurance risk in the normal course of business for all of its businesses. Reinsurance assets represent balances recoverable from unpaid losses incurred by the Company with coverage from reinsurance companies and the reinsurance premiums that pertain to the unexpired periods at reporting date. Recoverable amounts are estimated in a manner consistent with the outstanding claims provision and the deferred reinsurance premiums are in accordance with the reinsurance contract.

An impairment review is performed at each end of the reporting period. The account is collectively assessed for impairment estimated on the basis of historical loss experience, adjusted on the basis of current observable data to reflect the effects of current conditions. The impairment loss is recorded in the statements of income.

Ceded reinsurance arrangements do not relieve the Company from its obligations to policyholders.

The Company also assumes reinsurance risk in the normal course of business. Premiums and claims on assumed reinsurance are recognized as income and expenses in the same manner as they would be if the reinsurance were considered direct business, taking into account the product classification of the reinsured business. Reinsurance liabilities represent balances due to reinsurance companies. Amounts payable are estimated in a manner consistent with the associated reinsurance contract.

Premiums and claims are presented on a gross basis for both ceded and assumed reinsurance. Reinsurance assets or liabilities are derecognized when the contractual rights expire, are extinguished or when the contract is transferred to another party.

When the Company enters into a proportional treaty reinsurance agreement for ceding out its insurance business, the Company initially recognizes a liability at transaction price. Subsequent to initial recognition, the portion of the amount initially recognized as a liability which is presented as 'Insurance payables' in the liabilities section of the statement of financial position will be withheld and recognized as funds held for reinsurers and included as part of the 'Insurance payables' in the liabilities section of the statement of financial position. The amount withheld is generally released after a year.

Investment in an Associate
Investment in an associate in which the Company exercises significant influence and which is neither a subsidiary nor a joint venture of the Company is accounted for under the equity method. Under the equity method, the cost of investment in associate is carried in the statement of financial position at cost and is increased or decreased by the Company's share in net earnings or losses of the associates since the date of acquisition and reduced by dividends received. After application of the equity method, the Company determines whether it is necessary to recognize any impairment loss with respect to the Company's net investment in the associate. The statements of income reflects the share in results of operations of the associate. Where there has been a change recognized directly in the equity of the associate, the Company recognizes its share of any changes and discloses this, when applicable, in the statement of changes in equity.

Investment in associate is accounted for using the equity method from the date it becomes an associate. On acquisition of the investment, any difference between the cost of the investment and the investor's share of the net fair value of the associate's identifiable assets, liabilities and contingent liabilities is accounted for in accordance with PFRS 3. Therefore:

a. goodwill relating to an associate is included in the carrying amount of the investment. However, amortization of that goodwill is not permitted and is therefore not included in the determination of the Company's share of the associate's profit or loss; and
b. any excess of the Company's share of the net fair value of the associate's identifiable assets, liabilities and contingent liabilities over the cost of the investment is excluded from the carrying amount of the investment and is instead included as income in the determination of the Company's share of the associate's profit or loss in the period in which the investment is acquired.

The Company discontinues applying the equity method when its investments in associates, including any other unsecured receivables, are reduced to zero. Additional losses are provided only to the extent that the Company has incurred obligations or made payments on behalf of the associate to satisfy obligations of the investee that the Company has guaranteed or otherwise committed. If the investee subsequently reports profit, the Company resumes applying the equity method only after its share of the profits equals the share of net losses not recognized during the period the equity method was suspended.

Unrealized gains on transactions between the Company and its associates are eliminated to the extent of the Company's interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Upon loss of significant influence over the associate, the Company measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognized in statement of income.

Investment in an associate pertains to the Company's 12.82% ownership interest in Maestro Holdings, Inc. as of December 31, 2025 and 2024. The reporting date of the associate is at December 31.

Deemed disposals
An investor's interest in an associate may be reduced other than by an actual disposal. Such a reduction in interest, which is commonly referred to as a deemed disposal, gives rise to a gain or loss on deemed disposal recognized in profit or loss. Deemed disposals may arise for a number of reasons including:

- The investor does not take up its full allocation in a rights issue by the associate;
- The associate declares scrip dividends which are not taken up by the investor so that its proportional interest is reduced;
- Another party exercises its options or warrants issued by the associate; or
- The associate issues shares to third parties.

The gain or loss on deemed disposal is determined as the difference between the Company's share in the change in the associate's net assets and deemed share in the additional capital subscription.

Investment Properties
Property held for long-term rental yields or for capital appreciation or for both, is classified as investment property. These properties are initially measured at cost, which includes transaction costs, but excludes day to day servicing costs. Replacement costs are capitalized if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be reliably measured.

Subsequent to initial recognition, investment properties are stated at fair value, which reflects the prevailing market conditions at the statement of financial position date. Gains or losses resulting from changes in the fair values of investment properties are recognized in the statements of income under 'Fair value gain (loss) on investment properties.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development.

Transfers are made from investment property when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with a view to sale.

Investment property is derecognized when it has been disposed of or when permanently withdrawn from use and no future benefit is expected from its disposal.

Property and Equipment
The initial cost of property and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operations, such as repairs and maintenance, are charged to income in the period in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment. Subsequent to initial recognition, property and equipment are carried at cost less accumulated depreciation and any impairment loss.

Depreciation is calculated using the straight-line method over the estimated useful life of the corresponding asset. The estimated useful lives of items of property and equipment are as follows:

	Years
Building	19-30
Transportation equipment	5
Office improvements	5
Office furniture, fixtures and equipment	3-5

The estimated useful lives and depreciation and amortization methods are reviewed periodically to ensure that the period and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

When property and equipment are retired or otherwise disposed of, the cost of the related accumulated depreciation and amortization and accumulated impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against the statements of income.

Impairment of Non-financial Assets
The Company assesses at each reporting date whether there is an indication that investment in an associate, property and equipment and right-of-use assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statements of income unless the asset is carried at revalued amount, in which case, the reversal is treated as a revaluation increase. After such reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining estimated useful life.

Creditable Withholding Taxes (CWTs)
Creditable withholding taxes pertain to the taxes paid by the Company withheld by its counterparty for the payment of its expenses and other purchases. These CWTs are initially recorded at cost as an asset under "Other assets" account.

At each end of the tax reporting deadline, these CWTs may either be offset against future tax income payable or be claimed as a refund from the taxation authorities at the option of the Company. If these CWTs are claimed as a refund, these will be recorded as a receivable under "Loans and receivables" account.

At each end of the reporting period, an assessment for impairment is performed as to the recoverability of these CWTs.

Value-added Tax (VAT)
The input value added tax pertains to the 12% indirect tax paid by the Company in the course of the Company's trade or business on local purchase of goods or services.

Output VAT pertains to the 12% tax due on the sale of insurance policies and other goods or services by the Company.

If at the end of any taxable month, the output VAT exceeds the input VAT, the outstanding balance is included under "Accounts payable and accrued expenses" account. If the input VAT exceeds the output VAT, the excess shall be carried over to the succeeding months and included under "Other assets" account.

Insurance Contract Liabilities

Provision for unearned premiums

The proportion of written premiums, gross of commissions payable to intermediaries, attributable to subsequent periods or to risks that have not yet expired is deferred as provision for unearned premiums. Premiums from short-duration insurance contracts are recognized as revenue over the period of the contracts using the 24th method. The change in the provision for unearned premiums is taken to the statement of income in the order that revenue is recognized over the period of risk. Further provisions are made to cover claims under unexpired insurance contracts which may exceed the unearned premiums and the premiums due in respect of these contracts.

The Company includes a Margin for Adverse Deviation (MfAD) to allow for inherent uncertainty of the best estimate of the policy reserves which shall be determined by an independent actuary at least on an annual basis based on standard projection techniques to bring the actuarial estimate of the policy liabilities at the 75% level of sufficiency.

Premium liabilities

Premium liabilities are equal to the provision for unearned premiums plus the difference between the provision for unexpired risk and the provision for unearned premiums, net of deferred acquisition costs, if the provision for unexpired risk is greater than the provision for unearned premiums net of Deferred acquisition costs. Otherwise, it is equal to the provision for unearned premiums.

Claims provision and Incurred But Not Reported (IBNR) losses

Provision for claims reported and IBNR losses are based on the estimated ultimate cost of all claims incurred but not settled at the end of the reporting period, whether reported or not, together with related claims handling costs and reduction for the expected value of salvage and other recoveries. The change in IBNR losses is taken to the statements of income. Delays can be experienced in the notification and settlement of certain types of claims, therefore the ultimate cost of which cannot be known with certainty at the reporting date. The IBNR shall be calculated based on standard actuarial projection techniques or combination of such techniques, such as but not limited to the chain ladder method, the expected loss ratio approach, the Bornhuetter - Ferguson method. At each reporting date, prior year claims estimates are reassessed for adequacy and changes made are charged to provision.

Provision for unexpired risk

Provision for unexpired risk is the best estimate that relates to expected future claim payments and related expenses to be incurred after the valuation date, arising from future events. This shall be calculated as the best estimate of future claims and expenses for all classes of business, with MfAD.

Leases

Company as a lessee

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the control the use of an identified asset for a period of time in exchange for consideration.

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Lease liability
At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognized as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset. The accretion of interest is presented as 'Interest on lease liability' in the Company statement of income.

Right-of-use assets
The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the Buildings. If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

Short-term leases and leases of low-value asset
The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the leases of low-value assets recognition exemption to leases of office equipment that are considered of low value (i.e., below ₱250,000). Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Company as a lessor
Leases where the lessor does not transfer substantially all the risks and benefits of ownership of the assets are classified as operating leases.

<u>Pension Benefit Liability and Plan Assets</u>
The defined benefit liability is the aggregate of the present value of the expected future payments required to settle the obligation resulting from employee service in the current and prior period. Plan assets are assets that are held by the Company and a fund to solely pay or fund employee benefits.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit cost comprises the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurement of net defined benefit liability or asset

Service cost, which includes current service cost, past service cost and gains or losses on non-routine settlements is recognized as expense in the statement of income. Past service cost is recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in statement of income.

Service cost and net interest on the benefit liability are recognized as “Net pension benefit expense” under “General expenses.”

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Company, nor can they be paid directly to the Company. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations). If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The Company's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Equity

Capital stock

Capital stock represents the value of shares that have been issued at par.

Retained earnings

Retained earnings include all the accumulated earnings of the Company less any dividends declared.

Treasury stock

Own equity instruments which are re-acquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in the statements of income on the purchase, sale, issue or cancellation of the Company’s own equity instruments. Any difference between the carrying amount and the consideration, if reissued, is recognized in additional paid-in capital.

Revenue Recognition
Revenue from contracts with customers is recognized upon transfer of services to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those services.

The Company assesses its revenue arrangements against specific criteria in order to determine if it is acting as a principal or agent. The Company concluded that it is acting as a principal in all of its revenue arrangements.

The following specific recognition criteria must also be met before revenue is recognized within the scope of PFRS 15:

Other income
Other income is recognized when earned. This includes administrative fees and other collections made by the Company.

Revenue outside the scope of PFRS 15
Premiums revenue
Gross insurance written premiums comprise the total premiums receivable for the whole period of cover provided by contracts entered into during the accounting period and are recognized on the date on which the policy incepts. Premiums include any adjustments arising in the accounting period for premiums receivable in respect of business written in prior periods.

Premiums are recognized as revenue over the period of the contracts using the 24th method. The portion of the premiums written and assumed that relate to the unexpired periods of the policies as of reporting date are accounted for as provision for unearned premiums and presented in the liabilities section of the statement of financial position under "Insurance contract liabilities" account. The related reinsurance premiums that pertain to the unexpired periods at reporting date are accounted for as deferred reinsurance premiums and presented in the assets section of the statement of financial position under "Reinsurance assets" account. The net changes in these accounts between reporting dates are charged against or credited to income for the year.

Reinsurance commissions
Commissions earned from short-duration insurance contracts are recognized as revenue over the period of the contracts using the 24th method. The portion of the commissions that relate to the unexpired periods of the policies at end of the reporting period are accounted for as "Deferred reinsurance commissions" and presented in the liabilities section of the statement of financial position.

Commission income
Commissions earned from short-duration insurance contracts are recognized as revenue over the period of contracts using the 24th method. The portion of the commissions that relates to the unexpired periods of the policies at the reporting date is accounted for as "Deferred reinsurance commissions" and presented in the liabilities section of the statement of financial position.

Interest income
For all financial instruments measured at amortized cost and interest-bearing financial instruments classified as financial assets at fair value through other comprehensive income, interest income is recorded at the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. The change in carrying amount is recorded as interest income.

Dividend income
Dividend income is recognized when the Company's right to receive the payment is established.

Rental income
Rental income is recognized in the statements of income based on billings during the year.

Fair value gain on investment properties
This pertains to changes in fair values of investment properties.

Expense Recognition
Expenses are decreases in economic benefits during the accounting period in the form of outflows or depletions of assets or incurrence of liabilities that result in decrease in equity, other than those relating to distribution to equity participants.

Benefits and claims
Gross benefits and claims consists of benefits and claims paid to policyholders, which include changes in the gross valuation of insurance contract liabilities, including IBNR, except for gross changes in the provision for unearned premiums which are recorded in gross premiums earned. The IBNR shall be calculated based on standard actuarial projection techniques or combination of such techniques, such as but not limited to the chain ladder method, the expected loss ratio approach and the Bornhuetter - Ferguson method. At each reporting date, prior year claims estimates are reassessed for adequacy and changes made are charged to provision. It further includes internal and external claims handling costs that are directly related to the processing and settlement of claims. Amounts receivable in respect of salvage and subrogation are also considered and are offset against the related claims. Insurance claims are recorded on the basis of notification received.

General expenses
General expenses are recognized in the statements of income as they are incurred.

Interest expense
Interest expense is charged against operations and is calculated using the effective interest method.

Commission expense
Commissions are recognized as expense over the period of the contracts using the 24th method. The portion of the commissions that relates to the unexpired periods of the policies at reporting date is accounted for as "Deferred Acquisition Cost" and presented in the asset section of the statement of financial position.

Income Tax
Current tax
Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that have been enacted or substantively enacted as at the end of the reporting period. The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretations and establishes provisions where appropriate.

Deferred income tax
Deferred income tax is provided using, the liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized for all deductible temporary differences, carryforward benefit of the excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carryforward of MCIT and unused NOLCO can be utilized.

The carrying amount of deferred income tax assets is reviewed at each end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred income tax assets to be utilized. Unrecognized deferred income tax assets are reassessed at each end of the reporting period and are recognized to the extent that it has become probable that future taxable income will allow all or part of deferred income tax assets to be recovered.

Deferred income tax assets and liabilities are measured at the tax rate that is expected to apply to the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. Movements in the deferred income tax assets and liabilities arising from changes in tax rates are credited to or charged against income for the period. Current tax and deferred income tax relating to items recognized directly in other comprehensive income is also recognized in other comprehensive income and not in the statement of income.

Deferred income tax assets and deferred income tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities, and the deferred taxes relate to the same taxable entity and the same taxation authority.

Provisions

Provisions are recognized only when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statements of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

The Company need not disclose the information of the provision if the disclosure of some or all of the information required can be expected to prejudice seriously the position of the Company in dispute with other parties on the subject matter of the provision. The Company shall disclose only the general nature of the dispute, together with the fact that, and reason why, the information has not been disclosed.

Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but are disclosed when an inflow of economic benefits is probable.

Events after the Reporting Date
Post year-end events that provide additional information about the Company's financial position at the end of the reporting date (adjusting events) are reflected in the Company's financial statements. Post year-end events that are not adjusting events, if any, are disclosed when material to the Company's financial statements.

3. Significant Accounting Judgments and Estimates

The preparation of the financial statements in accordance with PFRS Accounting Standards requires the Company to make judgments and estimates that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingent assets and liabilities. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be determinable under the circumstances.

Judgments
In the process of applying the Company's accounting policies, management has made the following judgments, apart from those involving estimations and assumptions, which has the most significant effect on the amounts recognized in the financial statements.

Product classification
The significance of insurance risk is dependent on both the probability of an insured event and the magnitude of its potential effect. As a general guideline, the Company defines significant insurance risk as the possibility of having to pay benefits on the occurrence of an insured event that are at least 5.00% more than the benefits payable if the insured event did not occur.

The Company has determined that the insurance policies it issues have significant insurance risks and therefore meets the definition of an insurance contract and should be accounted for as such.

Business model test
The Company manages its financial assets based on business models that maintain adequate level of financial assets to match expected cash outflows and maintain adequate level of high quality liquid assets while maintaining a strategic portfolio of financial assets for trading activities.

Assessment of significant influence
The Company holds less than 20.00% of the voting power of an investee, as such, it is presumed that the Company does not have significant influence, unless such can be clearly demonstrated. However, PAS 28 suggests that a substantial or majority ownership by another investor does not necessarily preclude an entity from having significant influence. Even though the Company holds less than 20.00% voting power over the investee, the Company assessed that it has significant influence based on the evaluation of events and circumstances. The following are the factors used by the Company in the assessment of significant influence:

a) representation on the board of directors or equivalent governing body of the investee;
b) capability to elect a seat in the board of directors;
c) participation of the designated nominee in the board with regards to investee's policy-making process, including participation in decisions about dividends or other distributions.

Assessment of contingencies
The Company is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with the legal counsels and based upon analysis of potential results. The Company currently does not believe these proceedings will have a material adverse effect on the Company's financial position. It is possible, however, that the results of operations could be materially affected by changes in the estimates.

Further, in the opinion of management, any possible liabilities that may arise from the tax assessments would not have a significant effect on the Company's financial position and results of operations. In particular on the tax assessment, management believes that it has strong and meritorious grounds that will support its basis of its assessments (see Note 27)

<u>Estimates and Assumptions</u>
The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Uncertainties over income tax payments
The Company applies significant judgement in identifying uncertainties over income treatments. Since the Company operates in a highly regulated environment, it assessed whether the Interpretation had an impact on its financial statements.

The Company applies significant judgment whether it is probable that a particular uncertain income tax treatment will be acceptable to the taxation authority. The Company considers the following:

- Past experience related to similar tax treatments
- Legal advice or case law related to other entities
- Practice guidelines published by the taxation authority that are applicable to the case

The Company reassesses the judgement if the facts and circumstances on which the judgement was based change or as a result of new information that affects the judgement.

Determination of fair values of financial assets
Fair value determinations for financial assets are based generally on listed market prices or broker or dealer price quotations within the bid-offer price range. If prices are not readily determinable or if liquidating the positions is reasonably expected to affect market prices, fair value is based on either internal valuation models or management's estimate of amounts that could be realized under current market conditions, assuming an orderly liquidation over a reasonable period of time. The use of assumptions could produce materially different estimates of fair value.

Valuation of insurance contract liabilities
For nonlife insurance contracts, estimates have to be made both for the expected ultimate cost of claims reported at the end of the reporting period and for the expected ultimate cost of the IBNR claims at the reporting date. It can take a significant period of time before the ultimate claim costs can be established with certainty and for some type of policies, IBNR claims form the majority of the statement of financial position claims provision. The IBNR provision of the Company has been calculated using standard actuarial projection techniques using past development patterns to determine the expected future development and project the claim amounts for each accident year to its ultimate value. A number of different valuation methodologies have been adopted, each with their own strengths and blended them together which include: (a) Chain Ladder method; (b) expected loss ratio method; and (c) Bornhuetter-Ferguson (BF method). At each reporting date, prior year claims estimates are reassessed for adequacy and changes made are charged to provision.

The main assumptions underlying the estimation of the claims provision is that a Company's past claims development experience can be used to project future claims development and hence, ultimate claims costs. Historical claims development is mainly analyzed by accident years, as well as by significant business lines and claim types. Large claims are usually separately addressed, either by being reserved at the face value of loss adjustor estimates or separately projected in order to reflect their future development. In most cases, no explicit assumptions are made regarding future rates of claims inflation or loss ratios. Instead, the assumptions used are those implicit in the historic claims development data on which the projections are based.

The carrying values of claims reported, MfAD, CHE and IBNR, gross of reinsurance, as of December 31, 2025 and 2024 are disclosed in Note 15.

Impairment of financial assets
The measurement of impairment losses under PFRS 9 across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- Criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a lifetime ECL basis and the qualitative assessment
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

The carrying values and allowance for credit and impairment losses relating to cash and cash equivalents, financial assets at FVOCI debt securities, insurance receivables and loans and receivables of the Company as of December 31, 2025 and 2024 are disclosed in Notes 4, 5 and 6.

Recognition of deferred tax assets
The Company reviews the carrying amounts of deferred tax assets at each end of the reporting period and reduces it to the extent that it is no longer probable that sufficient future taxable income will be available to allow all or part of the deferred tax assets to be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized. These assets are periodically reviewed for realization. Periodic reviews cover the nature and amount of deferred income and expense items, expected timing when assets will be used or liabilities will be required to be reported, reliability of historical profitability of businesses expected to provide future earnings and tax planning strategies which can be utilized to increase the likelihood that tax assets will be realized.

The Company's unrecognized deferred tax assets as of December 31, 2025 and 2024 are disclosed in Note 26.

Estimation of pension obligation
The determination of pension obligation and cost of pension is dependent on the selection of certain assumptions used in calculating such amounts. Those assumptions include, among others, discount rates and salary increase rates.

Due to the long-term nature of this plan, such estimates are subject to significant uncertainty. The assumed discount rates were determined using the market yields on Philippine government bonds with terms consistent with the expected employee benefit payout as of the reporting date. In accordance with PAS 19, actual results that differ from the Company's assumptions are recognized immediately in other comprehensive income in the period in which they arise. While the Company believes that the assumptions are reasonable and appropriate, significant differences in the actual experience or significant changes in the assumptions may materially affect the pension obligations.

The Company's pension obligation as of December 31, 2025 and 2024 are disclosed in Note 19.

4. Cash and Cash Equivalents, and Short-term Investments

Cash and Cash Equivalents
This account consists of:

	2025	2024
Cash on hand and in banks	**₱93,736,997**	₱103,738,733
Cash equivalents	**84,161,800**	119,453,577
	177,898,797	223,192,310
Allowance for credit losses:		
Balance at January 1	**240,138**	263,419
Provision for (recovery from) credit losses	**730,518**	(23,281)
Balance at December 31 (Note 14)	**970,656**	240,138
	₱176,928,141	₱222,952,172

Cash on hand includes petty cash fund, commission fund and undeposited collections as of end of the reporting period.

Cash in banks earns interest at the respective bank deposit rates. Cash equivalents are made for varying periods of up to three months depending on the immediate cash requirements of the Company and earn interest at the rates ranging from 0.38% to 6.00% and 0.38% to 6.00% in 2025 and in 2024, respectively.

Interest income from cash and cash equivalents amounted to ₱2.99 million and ₱2.64 million in 2025 and 2024, respectively (see Note 22). Interest receivable as of December 31, 2025 and 2024 amounted to ₱0.37 million and ₱0.47 million, respectively (see Note 7).

Short-term Investments

	2025	2024
Short-term investments	**₱–**	₱13,512,728
Allowance for credit losses (Note 14):		
Balance at January 1	**455,272**	83,876
Reversal of provision for credit losses	**(455,272)**	371,396
Balance at December 31	–	455,272
	₱–	₱13,057,456

Short-term investments are made for periods ranging more than 3 months and up to 12 months and earn interest at rates ranging from 0.60% to 5.75% and 2.00% to 5.75% in 2025 and 2024, respectively (see Note 22).

Interest income earned from short-term investments amounted to ₱0.07 million and ₱0. 33 million in 2025 and 2024, respectively (see Note 22). Interest receivable as of December 31, 2025 and 2024 amounted to nil million and ₱0.26 million, respectively (see Note 7).

5. Insurance Receivables - net

This account consists of:

	2025	2024
Due from brokers and agents	**₱227,668,704**	₱148,317,362
Reinsurance recoverable on paid losses	**91,919,110**	117,901,716

	December 31, 2024 (As restated - Note 2)	
	At Fair Value	At Cost
Mutual funds	₱79,885,064	₱78,300,366
Other funds	145,026,737	135,052,216
Other investments	184,385,706	16,387,164
	₱409,297,507	₱229,739,746

	January1, 2024 (As restated - Note 2)	
	At Fair Value	At Cost
Mutual funds	₱30,783,998	₱43,171,833
Other funds	111,827,448	141,480,024
Other investments	199,892,866	16,387,164
	₱342,504,312	₱201,039,021

Other investments pertain to transferred rights over the redeemable preferred shares of Advent Capital and Finance Corporation.

The rollforward analysis of financial assets at FVTPL follows:

	2025	2024 (As restated - Note 2)	January 1, 2024 (As restated - Note 2)
Balance at beginning of year	**₱409,297,507**	₱342,504,312	₱270,074,553
Acquisition	**40,000,000**	55,000,000	111,827,448
Disposals / maturities	**(58,854,767)**	(49,255,196)	(40,000,000)
Fair value gains (Note 22)	**27,692,297**	61,048,391	602,311
Balance at end of year	**₱418,135,037**	₱409,297,507	₱342,504,312

b) Financial assets at FVOCI

The financial assets at fair value through other comprehensive income of the Company consists of:

	2025	2024 (As restated - Note 2)	January 1, 2024 (As restated - Note 2)
Listed equity securities:			
Common shares	**₱790,992,901**	₱648,196,962	₱516,557,199
Preferred shares	**5,236,000**	4,794,000	24,842,400
Private debt securities	**547,579,441**	557,954,228	585,514,138
Unquoted equity securities	**642,078,892**	351,067,687	182,486,007
Government securities:			
Local currency	**151,333,124**	152,276,985	153,481,200
Foreign currency	**8,354,711**	7,889,976	20,387,143
Club shares	**22,890,000**	22,890,000	15,590,000
	₱2,168,465,069	₱1,745,069,838	₱1,498,858,087

As of December 31, 2025 and 2024, the quoted equity securities consist of shares of stock in a private corporation. Dividend income in 2025 and 2024 amounted to ₱25.94 million and (₱0.24) million, respectively (see Note 22).

Other securities include investment in shares of stock of Prime Power Holdings Corporation and investment in club shares. Fair value of shares of stock of Prime Power Holdings Corporation is derived based on the adjusted net asset value method while investments in club shares are based on the published fair values. The Company does not have any plans to sell these shares in the future.

The rollforward analysis of financial assets at FVOCI follows:

	2025	2024 (As restated - Note 2)	January 1, 2024 (As restated - Note 2)
Balance at beginning of year	**₱1,745,069,838**	₱1,498,858,087	₱1,389,678,121
Acquisitions	**275,610,828**	99,016,746	83,402,030
Disposal/maturities	**(251,972,490)**	(167,548,382)	(128,327,771)
Amortization of premium	**(713,073)**	(834,365)	(1,150,196)
Fair value gains recognized in OCI (Note 32)	**400,469,966**	315,577,752	155,255,903
Balance at end of year	**₱2,168,465,069**	₱1,745,069,838	₱1,498,858,087

As discussed in Note 2, in 2019, certain debt and equity investments were reclassified from FVTPL to FVOCI without a corresponding change in the Company's business model for managing those financial assets, which is inconsistent with the requirements of PFRS 9. During 2025, management retrospectively corrected the material prior period errors by restating the comparative information presented for prior periods and the affected opening balances.

The movements of revaluation reserves on financial assets at FVOCI follow:

	2025	2024 (As restated - Note 2)	January 1, 2024 (As restated - Note 2)
Balance at beginning of year	**₱884,388,947**	₱592,354,294	₱437,607,948
Fair value gains recognized in OCI	**400,469,966**	315,577,752	155,255,903
Tax effect	**(43,252,485)**	(28,813,405)	(1,394,907)
Transfer to profit or loss:			
Realized loss on sale (Note 22)	**(7,423,571)**	1,275,525	–
Provision for credit losses (Note 25)	**1,540,365**	3,994,781	885,350
Total net changes in the revaluation reserves	**351,334,275**	292,034,653	154,746,346
Balance at end of year	**₱1,235,723,222**	₱884,388,947	₱592,354,294

Debt financial assets at FVOCI bear interest ranging from 3.31% to 7.26% and from 3.63% to 7.26% for 2025 and 2024, respectively. Interest income from debt financial assets at FVOCI amounted to ₱32.29 million and ₱40.43 million in 2025 and 2024, respectively (see Note 22). Interest receivable as of December 31, 2025 and 2024 amounted to ₱8.47 million and ₱8.09 million, respectively (see Note 7).

c) *HTC investments*

Hold-to-collect investments consist of investments in government securities which are deposited with the Insurance Commission (IC) in accordance with the provisions of the Insurance Code (Section 209) for the benefit and security of policy holders and creditor of the Company.

The rollforward analysis of HTC investments follows:

	2025	2024
Balance at beginning of year	**₱208,662,531**	₱202,514,146
Acquisitions	–	7,961,281
Amortization of premium	**(1,971,444)**	(1,812,896)
Balance at end of year	**₱206,691,087**	₱208,662,531

The following presents the breakdown of HTC investments by contractual maturity dates:

	2025	2024
Within one year	**₱–**	₱–
Due within two (2) to five (5) years	**19,042,976**	19,139,917
More than five (5) years	**187,648,111**	189,522,614
	₱206,691,087	₱208,662,531

HTC investments bear interest ranging from 3.50% to 10.25% in 2025 and in 2024. Interest income from HTC financial assets amounted to ₱21.53 million and ₱11.97 million in 2025 and 2024, respectively (see Note 22). Interest receivable as of December 31, 2025 and 2024 amounted to ₱3.65 million and ₱2.43 million, respectively (see Note 7).

d) Loans and receivables

This account consists of:

	2025	2024
Real estate mortgage loan (Note 31)	**₱–**	₱39,642,915
Loans receivable (Notes 19 and 31)	**18,352,318**	29,615,026
Accounts receivable	**1,603,118**	2,033,632
Advances	**291,200**	291,200
Deposit on fractional share	**900**	900
	20,247,536	71,583,673
Allowance for credit losses (Note 14):		
Balance on January 1	**78,915**	307,752
Provision for (recovery from) credit losses	**(6,532)**	(228,837)
Balance at December 31	**72,383**	78,915
	₱20,175,153	₱71,504,758

Loans receivable pertains to the purchased note receivable, without recourse, from Philippine Life Financial Assurance Corporation (PhilLife) entered into by the Company in December 2022 with purchase price of ₱50.00 million. The notes pertain to salary loans granted by PhilLife to Department of Education (DepEd) which earn 7.00% interest per annum.

Loans receivable also pertains to loans made to employees included in the retirement plan which earn interest ranging from 10.00% to 12.00% and have terms ranging from 3 months to 7 years (see Note 19).

Accounts receivable consists of advance payment for utilities and condominium dues of its tenants as part of their lease agreement, advances made to employees which are paid through salary deduction, agent's advance commissions and other receivables from agents arising from renewal of their licenses.

Advances consist of amounts due from related parties and officers and employees. These are non-interest-bearing and are payable on demand.

Interest income from loans and receivables amounted to ₱2.17 million and ₱5.57 million in 2025 and 2024, respectively (see Note 22). Interest receivable as of December 31, 2025 and 2024 amounted to nil and nil, respectively (see Note 7).

7. Accrued Income

	2025	2024
Accrued interest income on:		
Financial assets at FVOCI (Note 6)	**₱7,682,984**	₱7,604,751
HTC investments (Note 6)	**3,635,150**	2,913,516
Cash equivalents and short-term investments (Note 4)	**367,754**	731,980
	₱11,685,888	₱11,250,247

8. **Investment in an Associate**

The details and movements in this account follow:

	2025	2024
Acquisition cost	**₱174,117,100**	₱174,117,100
Accumulated equity in net earnings:		
Balance at beginning of year	**₱765,733,148**	₱774,838,705
Equity in net earnings (loss)	**72,745,698**	(9,105,557)
Balance at end of year	**838,478,846**	765,733,148
Share in other comprehensive income (loss):		
Balance at beginning of year	**(1,770,654)**	(371,787)
Remeasurement on life insurance reserve	**456,831**	(360,014)
Remeasurement loss on defined benefit plan	**(1,551,088)**	(1,259,655)
Unrealized fair value gain on financial assets at FVOCI	**6,923,942**	220,802
Balance at end of year	**4,059,031**	(1,770,654)
Share in equity reserve:		
Balance at beginning and end of year	**3,169,580**	3,169,580
	₱1,019,824,557	₱941,249,174

As at December 31, 2025 and 2024, this account represents the Company's 12.82% interest in Maestro Holdings, Inc. (Maestro), a holding company of PhilPlans First, Inc. (PhilPlans), PhilhealthCare, Inc. (PhilCare), Philippine Life Financial Assurance Corporation (PhilLife) and BancLife Insurance Co., Inc. (BancLife). Maestro's principal place of business is 7/F STI Holdings Center, 6764 Ayala Avenue, Makati City.

Condensed consolidated financial information for Maestro Holdings, Inc. follows:

	2025	2024
Current assets	**₱3,477,160,896**	₱2,203,966,307
Non-current assets	**31,464,033,333**	32,179,645,974
Current liabilities	**(7,255,420,622)**	(7,376,678,182)
Non-current liabilities	**(19,357,121,806)**	(19,338,163,077)
Total equity	**8,328,651,801**	7,668,771,022
Less equity attributable to equity holders of non-controlling interest	**373,702,058**	326,733,783
Equity attributable to equity holders of the associate	**7,954,949,743**	7,342,037,239
Proportion of the Company's ownership	**12.82%**	12.82%
Carrying amount of the investment	**₱1,019,824,557**	₱941,249,174

	2025	2024
Revenues	**₱14,448,821,764**	₱10,794,919,345
Net income (loss)	**672,357,308**	(23,025,444)
Other comprehensive income (loss)	**46,154,477**	(10,570,031)
Total comprehensive income (loss)	**718,511,785**	(33,595,475)
Less total comprehensive income attributable to equity holders of non-controlling interests	**61,919,074**	48,342,310
Total comprehensive income (loss) attributable to equity holders of the associate	**656,592,711**	(81,937,785)
Proportion of the Company's ownership	**12.82%**	12.82%
Share in total comprehensive (loss) income	**₱84,175,186**	(₱10,504,424)

Information about and major transactions of the associate is discussed below:

In November 2022, Maestro and PhilLife executed a Deed of Assignment for a Property Share Swap. On the same date, PhilLife filed an application with the SEC for the confirmation of valuation to support the issuance of the 21,568,800,000 shares from PhilLife through the Investment Property for Share Swap. The SEC has required PhilLife to secure the favorable endorsement of the Insurance Commission for the Property for Share Swap. This transaction caused reduction in the ownership interest of the Company over Maestro from 13.21% to 12.82%, and resulted in a dilution of the investment. The Company recognized a loss on deemed disposal amounting to ₱23.33 million in its 2022 statement of comprehensive income.

On January 4, 2023, PhilLife received the letter from the Insurance Commission which states no objection to the infusion of real property in exchange for common shares. On April 19, 2023, PhilLife received an email advice from the SEC on its approval of PhilLife's application for confirmation of valuation of the issuance shares.

9. Deferred Acquisition Cost and Deferred Reinsurance Commissions

Deferred Acquisition Cost

The rollforward analysis of this account follows:

	2025	2024 (As restated - Note 2)	January 1, 2024 (As restated - Note 2)
At beginning of the year	**₱33,980,277**	₱32,047,395	₱32,455,990
Costs deferred during the year	**92,919,425**	73,600,965	68,843,825
Amortization during the year	**(79,782,697)**	(71,668,083)	(69,252,420)
At end of the year	**₱47,117,005**	₱33,980,277	₱ 32,047,395

As discussed in Note 2, during 2025, the Company retrospectively corrected material prior period errors related to commission accounting, arising from the previous use of cash basis recognition instead of the 24th method prescribed under Insurance Commission Circular Letter No. 2018-18, by restating comparative information and affected opening balances in accordance with PAS 8.

Deferred Reinsurance Commissions

The rollforward analysis of this account follows:

	2025	2024
At beginning of the year	**₱9,616,049**	₱12,270,038
Income deferred during the year	**24,602,005**	20,322,665
Amortization during the year	**(20,444,780)**	(22,976,654)
At end of the year	**₱13,773,274**	₱9,616,049

10. **Reinsurance Assets**

This account consists of:

	2025	2024
Reinsurance recoverable on unpaid losses (Note 15)	**₱99,786,565**	₱398,632,747
Deferred reinsurance premiums (Note 15)	**95,259,225**	82,100,408
	₱195,045,790	₱480,733,155

11. **Investment Properties - net**

The investment properties consist of parcels of land and buildings which are held for capital appreciation and/or being leased out under operating lease to earn income.

The rollforward analysis of this account follows:

	December 31, 2025		
	Land	**Building and building improvements**	**Total**

At December 31	**₱163,176,000**	**₱195,154,012**	**₱358,330,012**

	December 31, 2024		
	Land	Building and building improvements	Total
Acquisition cost	₱22,157,000	₱90,908,482	₱113,065,482
Fair value gain	133,215,000	86,025,828	219,240,828
At December 31	₱155,372,000	₱176,934,310	₱332,306,310

Fair values of the investment properties were determined using the Market Data Approach and Income Approach.

The Market Data Approach means that the valuation performed by the independent appraiser is based on sales, listings and other market data of comparable properties registered within the vicinity of subject property. The technique requires reducing reasonably comparative sales and listings to a common denominator in order to conform to the subject property. The comparison among the subject property and the comparable units was premised on the factors of location, size and shape of the lot, highest and best use and the time element.

The Income Approach means that the valuation is performed by converting future cash flows to a single current value. Under the income approach, the value of an asset is determined by reference to the value of income, cash flow or cost savings generated by the asset. The appraisers employed the discounted cash flow (DCF) method to future expected income streams.

As of December 31, 2025 and 2024, the date of valuation, the real estate properties' fair values are based on the valuations performed by Asian Appraisal Company, Inc., an accredited independent appraiser.

Description of valuation techniques used and key inputs to valuation on investment properties are as follows:

			2025	2024
Location	**Level**	**Significant unobservable inputs**	**Range (weighted average)**	
Cebu Business Park, Barangay Hipodromo, Cebu City	3	Estimated computed value per sqm	**₱118,916**	₱114,093
		Net price (₱/sqm)	**₱118,916**	₱114,093
Philippines First Condominium, Ayala Avenue, Legaspi Village, Barangay San Lorenzo, Makati City	3	Estimated computed value per sqm	**₱155,100**	₱155,100
		Net price (₱/sqm)	**₱141,949**	₱135,506
		Internal factors, such as unit location, unit area/size, building location, view, building age, architectural, bargaining allowance and building design	**-10% to 0%**	-10% to 5%
Carmen Court Condominium, Barangay Poblacion Makati City	3	Estimated computed value per sqm	**₱63,000**	₱60,000
		Net price (₱/sqm)	**₱80,769 to P84,777**	₱68,875 to P85,545
		Internal factors, such as unit location, unit area/size, building location, view, building age, architectural, bargaining allowance and building design	**-10% to 0%**	-5% to 10%
Horizon Condominium, Meralco Avenue, Barangay Oranbo, Pasig City	3	Estimated computed value per sqm	**₱95,881**	₱108,126
		Net price (₱/sqm)	**₱95,881**	₱108,126
Prudential Life Building, Ortiz Street, Ilo-ilo City	3	Estimated computed value per sqm	**₱60,310**	₱52,719
		Net price (₱/sqm)	**₱60,310**	₱52,719
Roseville Subdivision, Barangay Pulung Bulo, San Fernando City, Pampanga	3	Estimated computed value per sqm	**₱4,700**	₱4,300
		Net price (₱/sqm)	**₱6,783 to P8,714**	₱6,098 to P7,843
		Internal factors, such as unit location, unit area/size, building location, view, building age, architectural, bargaining allowance and building design	**-10% to 0%**	-10% to 0%

(Forward)

Location	Level	Significant unobservable inputs	2025	2024
			Range (weighted average)	
Barangay 39 (Poblacion), Cagayan de Oro City	3	Estimated computed value per sqm	**₱67,000**	₱57,000
		Net price (₱/sqm)	**₱58,500 to P63,000**	₱54,000 to P68,000
		Internal factors, such as unit location, unit area/size, building location, view, building age, architectural, bargaining allowance and building design	**-10% to 5%**	-15% to 5%
Macasandig, Cagayan de Oro City	3	Estimated computed value per sqm	**P11,300**	P9,500
		Net price (₱/sqm)	**₱12,150 to P15,000**	₱9,000 to P12,750
		Internal factors, such as unit location, unit area/size, building location, view, building age, architectural, bargaining allowance and building design	**-10% to 0%**	-15% to 5%

Fair values of the investment properties have been determined based on valuations performed by independent external and in-house appraisers using valuation technique with significant inputs that are not based on observable market data (Level 3).

The Company has determined that the highest and best use of all the investment properties is consistent with its current use.

For the market approach, significant increases (decreases) in price per square meter and size of investment property would result in a significantly higher (lower) fair value of the property. Significant increases (decreases) in discount would result in a significantly lower (higher) fair value of the property. Significant increases (decreases) in degree of lack of marketability would result in lower (higher) fair value of the property.

For the income approach, significant increases (decreases) in the lease rate would result to significantly higher (lower) fair value of the property. Significant increases (decreases) in the escalation rate would result to significantly higher (lower) fair value of the property. Significant increases (decreases) in the lease term would result to significantly higher (lower) fair value of the property. Significant increases (decreases) in the depreciation rate would result to significantly lower (higher) fair value of the property. Significant increases (decreases) in the operating expenses will result to significantly lower (higher) fair value of the property. Significant increases (decreases) in the discount rate would result to significantly lower (higher) fair value of the property.

Rental income earned on investment properties amounted to ₱17.61 million and ₱15.81 million in 2025 and 2024, respectively (see Note 23). Direct operating expenses arising from investment properties amounted to ₱0.70 million and ₱0.56 million in 2025 and 2024, respectively.

12. Property and Equipment - net

The rollforward analysis of this account as of December 31, 2025 and 2024 follows:

	December 31, 2025				
	Building	**Office Improvements**	**Transportation Equipment**	**Office Furniture, Fixtures and Equipment**	**Total**

Cost of fully depreciated property and equipment still being used amounted to ₱46.63 million and ₱45.76 million as of December 31, 2025 and 2024, respectively.

13. Other Assets

This account consists of:

	2025	2024
Prepaid taxes	**₱26,761,303**	₱23,328,988
Escrow account	**1,000,000**	1,000,000
Deposits	**798,925**	697,495
Prepaid expenses	**428,887**	428,892
Security fund	**96,663**	96,663
	₱29,085,778	₱25,552,038

Prepaid expenses pertain to advance payment of annual dues and leased line dedicated internet connection while prepaid taxes pertain to creditable withholding taxes that are withheld by the Company's customers which can be applied as tax credits on future income tax payable of the Company.

Escrow account pertains to the payment made by the Company for its accreditation with National Labor Relation Commission.

Deposits pertain to the refundable rental and security deposits on rented properties.

14. **Allowance for Credit Losses**

Changes in the allowance for credit losses follow:

	2025	2024
Balances at January 1		
Cash and cash equivalents	**₱240,138**	₱263,419
Short-term investments	**455,272**	83,876
Insurance receivables	**56,639,259**	51,968,896
Loans and receivables	**78,915**	307,752

Premiums earned during the year (Note 21)	**(466,729,901)**	**(209,698,611)**	**(257,031,290)**	(392,215,526)	(206,986,232)	(185,229,294)
At December 31	**₱266,375,720**	**₱95,259,225**	**₱171,116,495**	₱190,102,956	₱82,100,408	₱108,002,548

16. Insurance Payables

This account consists of 'Due to reinsurers' amounting to ₱86.76 million and ₱81.03 million as of December 31, 2025 and 2024, respectively. The rollforward analysis of insurance payables follows:

	2025	2024
At January 1	**₱81,033,824**	₱110,785,733
Additions	**222,857,428**	197,236,395
Payments	**(217,134,167)**	(226,988,304)
At December 31	**₱86,757,085**	₱81,033,824

17. Accounts Payable and Accrued Expenses

This account consists of:

	2025	2024 (As restated - Note 2)	January 1, 2024 (As restated - Note 2)
Dividend payable	**₱2,082,151**	₱50,261,822	₱50,261,822
Accounts payable	**13,119,596**	33,012,265	15,340,375
Taxes payable	**21,450,257**	18,227,234	63,903,810
Premium deposits	**11,195,318**	16,310,880	26,527,387
Commission payable	**30,389,561**	11,661,277	3,571,381
Accrued expenses	**12,960,764**	4,404,942	3,465,892
Rent payable	–	–	94,510
	₱91,197,647	₱133,878,420	₱163,165,177

Dividend payable pertains to cash dividend declared by the BOD on July 3, 2019 amounting to ₱50,000,000 and payable upon full compliance with all necessary regulations.

Accounts payable consists of unpaid invoice from various suppliers.

Taxes payable consists primarily of documentary stamp tax, expanded withholding tax, VAT payable and other taxes and licenses payable

Premium deposits pertain to advance premium and unapplied collections from policyholders.

Commission payable pertains to unpaid intermediary commissions as of the reporting date. As discussed in Note 2, during 2025, the Company retrospectively corrected material prior period errors related to commission accounting, arising from the previous use of cash basis recognition instead of the 24th method prescribed under Insurance Commission Circular Letter No. 2018-18, by restating comparative information and affected opening balances in accordance with PAS 8.

Accrued expenses comprise of professional fees, utilities, accrued rentals, employee benefits and other expenses accrued as of the reporting date which are due within one year.

18. **Other Liabilities**

This account consists of:

	2025	2024
Customers' deposits	**₱2,874,096**	₱103,472,642
Rent received in advance	**8,706,373**	7,663,107
Others	**23,900,143**	33,406,278
	₱35,480,612	₱144,542,027

Customers' deposits pertain to cash collaterals from policyholders holding bond insurance policies.

Rent received in advance pertains to advance rental from customers.

Other payables include clients' rental deposit, SSS, Pag-ibig and Philhealth premiums payable and others.

19. **Net Pension Liability**

The Company has a non-contributory defined benefit retirement plan covering all of its employees.

The amount of net pension liability recognized in the statements of financial position follows:

	2025	2024
Present value of defined benefit obligation	**₱38,677,354**	₱37,514,704
Fair value of plan assets	**25,929,625**	25,239,071
	₱12,747,729	₱12,275,633

The movement in the net pension liability recognized in the statement of financial position follows:

	2025	2024
At January 1	**₱12,275,633**	₱7,339,222
Expense recognized in profit or loss	**2,299,963**	1,772,013
Contributions paid	**(2,471,963)**	(1,772,013)
Remeasurements of the net pension liability	**644,096**	4,936,411
At December 31	**₱12,747,729**	₱12,275,633

The following tables summarize the components of the "Pension benefit expense" recognized in the statements of income under "General expenses" account (see Note 25), "Remeasurements on defined benefit plan" recognized in the statement of comprehensive income and the unfunded status recognized in the statement of financial position for the retirement plan.

Pension benefit expense recognized in 2025 and 2024 follow:

	2025	2024
Current service cost	**₱2,299,651**	₱1,006,337
Interest cost	**1,547,467**	1,825,346
Pension benefit expense (Note 25)	**₱3,847,118**	₱2,831,683

The movements of remeasurement gains (losses) recognized in OCI follow:

	2025	2024
At January 1	**(₱15,539,297)**	(₱10,602,886)
Actuarial gain (loss) due to:		
Changes in financial assumptions	**(657,391)**	(2,836,070)
Deviations of experience from assumptions	**13,295**	(2,100,341)
Total remeasurement loss, gross of tax	**(644,096)**	(4,936,411)
At December 31	**(₱16,183,393)**	(₱15,539,297)

The movements of the fair value of plan assets follow:

	2025	2024
At January 1	**₱25,239,071**	₱22,881,742
Interest income	**1,547,155**	1,382,057
Contribution	**2,471,963**	1,772,013
Benefits paid	**(2,656,025)**	(20,625)
Actuarial loss on plan asset	**(672,539)**	(776,116)
At December 31	**₱25,929,625**	₱25,239,071

The movements of the present value of defined benefit obligation follow:

	2025	2024
At January 1	**₱37,514,704**	₱30,220,964
Interest cost	**2,299,651**	1,825,346
Current service cost	**1,547,467**	1,328,724
Benefits paid	**(2,656,025)**	(20,625)
Actuarial gain (loss) on obligation	**(28,443)**	4,160,295
At December 31	**₱38,677,354**	₱37,514,704

The principal actuarial assumptions used in determining pension benefit obligation are as follow:

	2025	2024
Salary increase rate	**6.00%**	6.00%
Discount rate	**6.14%**	6.13%

Sensitivity analysis
The sensitivity analysis below has been determined based on reasonably possible changes of each significant assumption on the defined benefit obligation as of the end of the reporting period, assuming all other assumptions were held constant:

	Change in variables	Increase (Decrease)
2025		
Discount rate	**+1.00%**	**(₱1,426,399)**
	-1.00%	**1,812,835**
Salary increase rate	**+1.00%**	**1,775,710**
	-1.00%	**(1,471,668)**

	Change in variables	Increase (Decrease)
2024		
Discount rate	+1.00%	(₱1,213,928)
	-1.00%	1,616,757
Salary increase rate	+1.00%	1,568,366
	-1.00%	(1,272,224)

Maturity profile
Shown below is the maturity analysis of the undiscounted benefits payments:

	2025	2024
Less than one (1) year	**₱21,854,391**	₱22,832,237
More than one (1) year to five (5) years	**7,767,204**	6,666,961
More than five (5) years to 10 years	**19,945,380**	12,177,674
More than 10 years to 15 years	**14,146,484**	16,138,138
More than 15 years	**35,056,914**	28,573,297
Total	**₱98,770,373**	₱86,388,307

The Company has set aside retirement fund for the payment of the retirement benefits of its employees. The Company is generally responsible for the administration of the fund, but portion of the retirement fund is administered by a local bank as trustee. As of December 31, 2025 and 2024, the investment in trustee amounts to ₱6.26 million and ₱4.88 million, respectively.

The details of the plan assets follow:

	2025	2024
Cash in bank for pension	**₱517,108**	₱3,987,733
Time deposits	**7,483,465**	7,163,180
Debt securities	**8,393,827**	8,073,714
Investment in trustee	**6,257,828**	4,884,896
Loans receivable	**3,459,897**	1,312,048
Net equity	**₱26,112,125**	₱25,421,571

The Company set aside cash amounting to ₱0.52 million and ₱3.99 million as of December 31, 2025 and 2024, respectively, to fund its defined benefit retirement plan. The Company is in the process of setting up a formal pension fund with a trustee bank.

The details of the investment in trustee follow:

	2025	2024
Cash	**₱2,588,253**	₱495,657
Debt securities	**1,821,266**	2,453,162
Investment funds	**1,838,017**	1,922,128
Loans and receivables	**22,117**	22,982
Trust fee and other payables	**(11,825)**	(9,033)
Investment to trustee	**₱6,257,828**	₱4,884,896

The actual return on plan assets amounted to ₱0.87 million and ₱0. 61 million in 2025 and 2024, respectively.

20. Equity

Capital stock
This account consists of the following:

	2025		2024	
Common Stock - ₱100 par value	**Shares**	**Amount**	Shares	Amount
Authorized	**10,000,000**	**₱1,000,000,000**	10,000,000	₱1,000,000,000
Issued and outstanding				
Balances at beginning of year	**10,000,000**	**₱1,000,000,000**	10,000,000	₱1,000,000,000
Issued during the year	**–**	**–**	–	–
Balances at end of year	**10,000,000**	**₱1,000,000,000**	10,000,000	₱1,000,000,000

Treasury stock
On April 10, 2013, the Company's BOD approved the acquisition of shares from stockholders at a purchase price of ₱342.80 per share or ₱8.69 million. The shares amounted to ₱2.54 million divided into 25,362 shares with a par value of ₱100 per share.

21. Net Premiums Earned

Net premiums earned consist of the following:

	2025	2024
Gross premiums on insurance contracts (Note 31):		
Direct	**₱466,909,449**	₱373,255,953
Assumed	**76,093,216**	28,545,323
Total gross premiums on insurance contracts (Note 15)	**543,002,665**	401,801,276
Gross change in provision for unearned premiums	**(76,272,764)**	(9,585,750)
Total gross premiums earned on insurance contracts (Note 15)	**466,729,901**	392,215,526
Reinsurers' share of gross premiums on insurance contracts:		
Direct	**222,857,428**	197,622,838
Assumed	**–**	601,565
Total reinsurers' share of gross premiums on insurance contracts (Notes 15)	**222,857,428**	198,224,403
Reinsurers' share of gross change in provision for unearned premiums	**(13,158,817)**	8,761,829
Total reinsurers' share of gross premiums earned on insurance contracts (Note 15)	**209,698,611**	206,986,232
Net premiums earned	**₱257,031,290**	₱185,229,294

22. Investment Income - net

This account consists of:

	2025	2024 (As restated - Note 2)
Interest income from:		
Financial assets at FVOCI (Note 6)	**₱28,694,068**	₱27,548,629
HTC investments (Note 6)	**24,342,742**	24,854,594
Loans and receivables (Note 6)	**2,174,700**	5,574,647
Cash and cash equivalents and short-term investments (Note 4)	**3,059,526**	2,970,400
Dividend income (Note 6)	**25,937,962**	42,974,677
Fair value gain on financial assets at FVTPL (Note 6)	**27,692,297**	61,048,391
Income from plan assets (Note 19)	**1,547,155**	1,382,057
Transfer from other comprehensive income:		
Realized gain (loss) on sale of financial assets at FVOCI (Note 6)	**7,423,571**	(1,275,525)
	₱120,872,021	₱165,077,870

Interest income from financial asset classified as FVOCI is the earned interest during the year based on the original effective interest rate and amortized cost at the beginning of the year which is being recognized in profit or loss.

Interest income from financial asset classified as HTC is the earned interest during the year based on the effective interest rate and amortized cost at the beginning of the year which is being recognized in profit or loss.

Realized gain (loss) on sale of financial assets at FVOCI is the cumulative change in fair value of private debt securities initially recognized in revaluation reserve then transferred to profit or loss upon disposal of the said investment.

23. Other Income - net

This account consists of:

	2025	2024
Rental income (Note 11)	**₱17,612,724**	₱15,808,548
Foreign exchange gain	**1,132,890**	416,539
Miscellaneous income	**192,141**	462,198
	₱18,937,755	₱16,687,285

The Company has various operating lease agreements for its investment properties. These lease agreements range for a period of one year to five years with an annual escalation rate of 5.00% - 10.00%.

Future minimum rental payments under operating leases follow:

	2025	2024
Within one (1) year	**₱15,705,466**	₱16,262,637
More than one (1) year but less than five (5) years	**24,149,582**	26,444,055
More than five (5) years	**265,942,016**	272,057,740
	₱305,797,064	₱314,764,432

24. **Net Insurance Contract Benefits and Claims**

Gross insurance contract benefits and claims paid consist of the following:

	2025	2024
Insurance contract benefits and claims paid (Note 15)		
Direct	**₱332,703,405**	₱213,512,466
Assumed	**3,580,552**	6,111,610
Total insurance contract benefits and claims paid	**₱336,283,957**	₱219,624,076

Reinsurers' share of insurance contract benefits and claims paid consist of the following:

	2025	2024
Reinsurers' share of insurance contract benefits and claims paid (Note 15):		
Direct	**₱273,705,635**	₱134,139,275
Assumed	**1,487,859**	586,452
Total reinsurers' share of insurance contract benefits and claims paid	**₱275,193,494**	₱134,725,727

Gross change in insurance contract benefits and claims liabilities:

	2025	2024
Change in provision for claims reported and loss adjustment expenses (Note 15)	**(₱206,849,347)**	(₱242,336,272)
Change in provision for claims IBNR (Note 15)	**(80,192,043)**	15,339,722
Total gross change in insurance contract benefits and claims liabilities	**(₱287,041,390)**	(₱226,996,550)

Reinsurers' share of change in insurance contract benefits and claims liabilities:

	2025	2024
Reinsurers' share of change in provision for claims reported and loss adjustment expenses (Note 15)	**(₱240,052,713)**	(₱192,444,478)
Reinsurers' share of change in provision for claims IBNR (Note 15)	**(58,793,469)**	(3,680,726)
Total reinsurers' share of change in insurance contract benefits and claims liabilities	**(₱298,846,182)**	(₱196,125,204)

25. General Expenses

This account consists of:

	2025	2024 (As restated - Note 2)
Salaries, allowances and employee benefits	**₱58,035,581**	₱53,457,620
Agency expenses	**31,158,438**	9,862,704
Depreciation (Notes 12 and 28)	**10,725,975**	7,082,792
General charges	**10,465,365**	8,026,554
Professional fees	**6,855,435**	6,219,859
Communications and postage	**6,581,439**	4,518,260
Pension benefit expense (Note 19)	**3,847,118**	2,831,683
Stationery and supplies	**2,570,911**	2,136,402
Repairs and maintenance	**2,289,612**	2,241,251
Association and pool expenses	**1,800,007**	2,388,873
Entertainment, amusement and recreation	**1,223,789**	951,408
Transportation	**1,128,939**	1,569,702
Condominium dues	**1,039,768**	1,308,702
Light and water	**962,832**	857,509
Rent (Note 28)	**848,889**	435,477
Investment expenses	**722,548**	686,897
Director's fees	**621,079**	50,000
Legal fees and expenses	**523,860**	1,581,292
Bank charges	**364,805**	240,697
Appraiser’s fee	**169,643**	169,643
Provision for credit and impairment losses (Notes 6 and 14)	**25,366**	8,784,420
Others	**1,060,691**	1,423,709
	₱143,022,090	₱116,825,454

Others pertain to advertising & promotion, professional and technical development, insurance, donation and subscription expense.

26. Income Tax

Pursuant to Republic Act (RA) No. 11534, otherwise known as the “Corporate Recovery and Tax Incentives for Enterprises (CREATE)” Act, the following changes in tax rates became effective on July 1, 2023 implemented through Revenue Memorandum Circular (RMC) 69-2023:

- Minimum corporate income tax (MCIT) rate is reverted to 2.00% of gross income which was previously reduced from 2.00% to 1.00% effective July 1, 2020 to June 30, 2023.

The Company's provision for (benefit from) income tax consists of:

	2025	2024
Current tax expense		
MCIT	**₱2,774,470**	₱2,703,225
Provision for prior year income tax	**–**	2,584,722
Final	**9,499,523**	9,781,281
	12,273,993	15,069,228
Deferred:		
Deferred tax	**18,886,339**	(16,602,475)
	₱31,160,332	(₱1,533,247)

The components of the recognized deferred tax liabilities are as follows:

	2025	2024
Deferred tax liabilities		
Fair value changes on FVOCI	**₱98,364,451**	₱55,111,967
Fair value changes on FVTPL	**36,015,095**	23,457,855
Fair value gains on investment properties	**54,597,429**	48,268,329
	₱188,976,975	₱126,838,151

Movements in net deferred tax liabilities comprise of:

	2025	2024
At beginning of the year	**(₱126,838,151)**	(₱114,627,221)
Amounts charged against statements of income	**(18,886,339)**	16,602,475
Amounts charged against statements of comprehensive income	**(43,252,485)**	(28,813,405)
At end of the year	**(₱188,976,975)**	(₱126,838,151)

The Company did not recognize the following deferred tax assets on deductible temporary differences since management believes that the benefits will not be realized:

	2025	2024
NOLCO	**₱26,976,146**	₱26,976,146
Provision for IBNR claims	**10,159,803**	15,509,447
Allowance for impairment losses	**13,974,646**	14,353,396
Excess of MCIT over RCIT	**5,477,695**	3,616,103
Pension obligation	**3,359,571**	3,068,908
Unamortized past service cost	**1,174,080**	1,575,080
Leases	**603**	(9,163)
Total	**₱61,122,544**	₱65,089,917

On September 30, 2020, the BIR has issued Revenue Regulations (RR) No. 25-2020 to implement Section 4 (b) of RA No. 11494, otherwise known as "Bayanihan to Recover as One Act", allowing qualified businesses or enterprises which incurred net operating loss for taxable years 2020 and 2021 to carry over the same as a deduction from its gross income for the next five (5) consecutive taxable years immediately following the year of such loss. Prior to this, NOLCO may be applied against the Company's gross income over three consecutive taxable years immediately following the year of such loss.

Details of the Company's NOLCO follow:

Year Incurred	Amount	Expired/Applied	Balance	Expiry Year
2021	₱17,991,923	₱17,991,923	₱–	2026
2022	4,659,410	4,659,410	–	2025
2023	114,531,656	6,627,074	107,904,582	2026
	₱137,182,989	₱29,278,407	₱107,904,582	

Details of the Company's MCIT follow:

Year Incurred	Amount	Expired/Applied	Balance	Expiry Year
2022	₱912,878	₱912,878	₱–	2025
2024	2,703,225	–	2,703,225	2027
2025	2,774,470	–	2,774,470	2028
	₱6,390,573	₱912,878	₱5,477,695	

The reconciliation of provision for income tax computed at the statutory corporate income tax rate to provision for income tax shown in the statements of income follows:

	2025	2024
At statutory income tax rate	**₱55,587,207**	₱27,979,326
Tax effects of:		
Non-taxable income	**(22,579,310)**	(20,423,665)
Interest income subjected to final taxes	**(2,375,112)**	(2,445,972)
Non-deductible expenses	**1,660,324**	3,794,936
Change in unrecognized deferred tax asset	**(1,132,777)**	(7,371,378)
	₱31,160,332	(₱1,533,247)

27. Contingencies

The Company is involved in various pending and potential legal actions and claims arising from the normal course of business. These matters have been evaluated for the probability of occurrence, and although the ultimate outcomes cannot be determined with certainty, management believes that no material liabilities are expected to arise.

28. Lease Commitments

The rollforward analysis of right-of-use asset is as follows:

	2025	2024
Cost		
Balance at beginning of year	**₱6,132,018**	₱5,814,632
Addition	**1,594,633**	317,386
Balance at the end of year	**7,726,651**	6,132,018
Accumulated depreciation		
Balance at beginning of year	**5,179,318**	4,327,631
Depreciation (Note 25)	**660,429**	851,687
Balance at the end of year	**5,839,747**	5,179,318
Net book value	**₱1,886,904**	₱952,700

There are no lease contracts that were pre-terminated in 2025 and 2024.

The Company is a party under various leases covering certain offices which have lease terms between 1 to 5 years for its branches. These leases have an average life of between 1 to 5 years with renewal terms included in the contracts. Generally, the Company is restricted from assigning and subleasing the leased assets.

The Company has several lease contracts that include extension and termination options. These options are negotiated by management to provide flexibility in managing the leased asset portfolio and align with the Company's business needs.

The Company has certain leases with lease terms of 12 months or less and leases with low-value and applies the 'short-term lease' and 'lease of low-value assets' recognition exemptions for these leases.

The Company also recognized lease liabilities with movements stated below:

	2025	2024
Balance at beginning of year	**₱989,352**	₱1,548,283
Additions	**1,594,633**	317,386
Interest expense	**210,482**	111,637
Payments	**(909,974)**	(987,954)
	₱1,884,493	₱989,352

The following are the amounts recognized in statements of income:

	2025	2024
Depreciation expense of right-of-use assets	**₱660,429**	₱851,687
Expenses relating to short-term leases (Note 25)	**509,850**	297,000
Expenses relating to leases of low-value assets (Note 25)	**339,039**	138,477
Interest expense on lease liabilities	**210,482**	111,637
Total amount recognized in statements of income	**₱1,719,800**	₱1,398,801

Shown below is the maturity analysis of the undiscounted lease payments:

	2025	2024
Within one (1) year	**₱641,570**	₱641,404
More than one (1) year but less than five (5) years	**1,888,315**	424,028
	₱2,529,885	₱1,065,432

29. Management of Capital, Insurance and Financial Risks

Regulatory Framework

Regulators are interested in protecting the rights of the policyholders and maintain close vigil to ensure that the Company is satisfactorily managing affairs for their benefit. At the same time, the regulators are also interested in ensuring that the Company maintains appropriate solvency position to meet liabilities arising from claims and that the risk levels are at acceptable levels.

The operations of the Company are subject to the regulatory requirements of the IC. Such regulations not only prescribe approval and monitoring of activities but also impose certain restrictive provisions (e.g., minimum statutory net worth and risk-based capital requirements).

Capital Management Framework

The Company maintains a certain level of capital to ensure sufficient solvency margins and to adequately protect the policyholders.

The Company reviews the capital requirements by monitoring the minimum statutory net worth and the risk-based capital (RBC) which is regularly communicated to the major shareholders. With this procedure, shareholders are forewarned in anticipation of the IC requirements of additional capital infusion. Shareholders are well updated with these externally imposed capital requirements since these are being discussed during the annual BOD meeting.

Minimum statutory net worth

On August 15, 2013, the President of the Philippines approved Republic Act No. 10607, otherwise known as the "New Insurance Code", which provides the new capitalization requirements for all existing insurance companies based on net worth on a staggered basis starting June 30, 2013 up to December 31, 2022.

On January 13, 2015, the IC issued Circular Letter No. 2015-02-A clarifying the minimum capitalization and net worth requirements of new and existing insurance companies in the Philippines. All domestic life and non-life insurance companies duly licensed by the IC must have a net worth of at least ₱250.00 million by December 31, 2013. The minimum net worth of the said companies shall remain unimpaired at all times and shall increase to the amounts as follows:

Net worth	Compliance Date
₱550,000,000	December 31, 2016
900,000,000	December 31, 2019
1,300,000,000	December 31, 2022

The minimum net worth requirement must remain unimpaired for the continuance of the license.

As of December 31, 2025, the Company's estimated statutory net worth amounted to ₱3.3 billion and the Company's net worth as of December 31, 2024 after verification of the Insurance Commission amounted to ₱2.4 billion. As of December 31, 2025 and 2024, the Company has complied with the minimum net worth requirements.

Solvency requirement

Under the revised Insurance Code (RA 10607), an insurance company doing business in the Philippines shall at all times maintain the minimum paid-up capital, and net worth requirements as prescribed by the Commissioner. Such solvency requirements shall be based on internationally accepted solvency frameworks and accepted only after due consultation with the insurance industry association.

The amounts of estimated non-admitted assets, as defined in the Code, are as follows:

	2025 (Estimated)	2024 (Actual)
Premiums receivables	**₱84,056,224**	₱66,321,213
Property and equipment	**39,288,782**	67,468,607
Other assets	**606,633,728**	861,490,237
	₱729,978,734	₱995,280,057

If an insurance company fails to meet the minimum required capital, the IC is authorized to suspend or revoke all certificates of authority granted to such companies, its officers and agents, and no new business shall be done by and for such company until its authority is restored by the IC.

The final amount of the net worth as of December 31, 2025 can be determined only after the accounts of the Company have been examined by the IC, specifically as to admitted and non-admitted assets as defined under the Code.

Risk-based capital requirements
In 2016, the IC issued Circular Letter No. 2016-68, *Amended Risk-Based Capital (RBC2) Framework*, pursuant to Section 437 of the Amended Insurance Code. The RBC ratio shall be calculated as Total Available Capital (TAC) divided by the RBC requirement. TAC is the aggregate of Tier 1 and Tier 2 capital minus deductions, subject to applicable limits and determinations. Tier 1 Capital represents capital that is fully available to cover losses of the insurer at all times on a going-concern and winding up basis (e.g. Capital Stock, Statutory Deposit, Capital Stock Subscribed, Contributed Surplus, etc.). Tier 2 Capital does not have the same high quality characteristics of Tier 1 capital, but can provide an additional buffer to the insurer [e.g. Reserve for Appraisal Increment – Property and Equipment, Remeasurement Gains (Losses) on Retirement Pension Asset (Obligation), etc. Tier 2 Capital shall not exceed 50.00% of Tier 1 Capital.

The minimum RBC ratio is set at 100.00%. All insurance companies are required to maintain the minimum RBC ratio and not fail the Trend Test.

The following table shows how the RBC ratio as of December 31, 2025 and 2024 was determined by the Company:

	2025 (Estimated)	2024 (Actual)
Total Available Capital	**₱3,962,695,213**	₱3,729,386,785
RBC requirement	**1,163,132,657**	1,176,462,708
RBC Ratio	**341%**	317%

New Regulatory Framework
Pursuant to the powers vested in the Insurance Commissioner by Sections 189, 200, 437 and 438 of Republic Act (RA) No. 10607, otherwise known as the Insurance Code, as amended, the following regulatory requirements and actions for the new regulatory framework are hereby adopted and promulgated:

Circular Letter No. 2016-65*, Financial Reporting Framework under Section 189 of the Amended Insurance Code (Republic Act No. 10607)*, prescribes the new financial reporting framework (FRF) that will be used for the statutory quarterly and annual reporting. This also includes rules and regulations concerning Titles III and IV of Chapter III of the Amended Insurance Code and all other accounts not discussed in the Amended Insurance Code but are used in accounting of insurance and reinsurance companies. This circular was further amended by CL No. 2018-54 to clarify the provisions of Section 6.1 ("Miscellaneous Provisions").

Circular Letter 2018-18*, Valuation Standards for Non-Life Insurance Policy Reserves*, prescribes the new valuation methodology for the non-life insurance companies. This CL supersedes CL No. 2016-67 and amends CL No. 2015-06 "New Reserves Computation for the Compulsory Insurance Coverage for Migrant Workers." CL No. 2018-18 was further supplemented by CL No. 2018-76, Discount Rates for Non-Life Insurance Policy Reserves as of 31 December 2018, prescribing the use of Peso spot and forward rates derived from the PHP BVAL Reference rates from Bloomberg and the Dollar spot and forward rates derived from the International Yield Curve from Bloomberg for Peso-denominated and US Dollar-denominated policies, respectively.

Circular Letter No. 2016-68*, Amended Risk-Based Capital (RBC2) Framework*, prescribes that all insurance companies must satisfy the minimum statutory RBC ratio of 100% and not fail the Trend Test as stated under Section 3 of this Circular. The RBC ratio of an insurance company shall be equal to the Total Available Capital (TAC) divided by the RBC requirement.

Implementation requirements and transition accounting
Circular Letter No. 2016-69, *Implementation Requirements for Financial Reporting, Valuation Standards for Insurance Policy Reserves and Amended Risk-based Capital Framework*. The new regulatory requirements under circular letters 2016-65, 2016-68 and 2018-18 shall take effect beginning January 1, 2017.

This circular was further amended by CL No. 2018-19 allowing companies to set the Margin for Adverse Deviation (MfAD) as follows:

Period Covered	**Percentage (%) of company specific MfAD**
2017	0%
2018	50%
2019 onwards	100%

Circular Letter No. 2017-15*, Regulatory Requirements and Actions for the New Regulatory Framework*. The cumulative prior year impact of the changes arising from the adoption of the New Financial Reporting Framework, including the revaluation of the reserves for Claims and Premiums Liabilities computed based on the new valuation standards for non-life insurance policy reserves as provided under CL No. 2016-67, shall be recognized in "Retained Earnings – Transition Adjustments" account except for items listed in Section 2.1. All changes in valuation shall be measured net of any tax effect.

Circular Letter No. 2020-58*, Regulatory Relief on the admittance of Premiums Receivable due to COVID-19 pandemic*. The basis for admitting Premium Receivable account (direct agents, general agents and insurance brokers) for all non-life insurance and professional reinsurance companies shall be adjusted from ninety (90) days to one hundred eighty (180) days from the date of issuance of the policies. This rule shall be applied to annual and quarterly financial reports for the year 2020 unless extended or changed as deemed necessary by this Commission.

Circular Letter No. 2021-43*, Extension of the Regulatory Relief on the admittance of Premiums Receivable due to COVID-19 pandemic.* This rule shall be applied to annual and quarterly financial reports for the year 2021 unless extended or changed as deemed necessary by this Commission.

Circular Letter No. 2022-30*, Regulatory Relief on the Admittance of Premiums Receivable due to the COVID-19 Pandemic for the periods ending 31 December 2020 up to 30 June 2022.* This rule shall be applied only to quarterly reports and annual statements covering the periods 2020 and 2021; and 1st and 2nd quarter reports for the year 2022, provided, that the non-life insurance company shall submit a proof allowing the credit term beyond ninety (90) days to its policyholders, and a separate premiums receivable aging schedule with supporting documents.

Insurance Risk

The risk under an insurance contract is the possibility of occurrence of the insured event and uncertainty of the amount and timing of the resulting claim. The principal risk the Company faces under such contracts is that the actual claims and benefit payments will exceed the carrying amount of insurance liabilities. This is influenced by the frequency of claims, severity of claims and actual benefits paid are greater than originally estimated.

The variability of risks is improved by diversification of risk of loss to a large portfolio of insurance contracts as a more diversified portfolio is less likely to be affected across the board by change in any subset of the portfolio. The variability of risks can also be improved by careful selection and implementation of underwriting strategy and guidelines.

The majority of reinsurance business ceded is placed on a quota share basis with retention limits. Amounts recoverable from reinsurers are estimated in a manner consistent with the assumptions used for ascertaining the underlying policy benefits and are presented in the statement of financial position as reinsurance assets.

Although the Company has reinsurance agreements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to reinsurance ceded, to the extent that any reinsurer is unable to meet the obligations assumed under such reinsurance agreements.

The Company's placement of reinsurance is diversified such that it is neither dependent on a single reinsurer nor are the operations of the Company substantially dependent upon any single reinsurance contract.

The business of the Company mainly comprises of short-term nonlife insurance contract.

The Company principally issued the following types of general insurance contracts: fire, engineering, marine, motor car, personal accident and miscellaneous casualty.

The table below sets out the concentration of the claims provisions as of December 31, 2025 and 2024 by type of contract (see Note 15):

	December 31, 2025			December 31, 2024		
	Gross Contract Liabilities	**Reinsurers' Share of Liabilities**	**Net**	Gross Contract Liabilities	Reinsurers' Share of Liabilities	Net
Property	**₱275,751,427**	**₱94,022,751**	**₱181,728,676**	₱546,331,649	₱393,729,140	₱152,602,509
Motor Car	**18,190,837**	**(588,395)**	**18,779,232**	33,138,911	600,619	32,538,292
Casualty	**17,241,658**	**5,610,783**	**11,630,875**	22,607,191	4,290,090	18,317,101
Marine	**5,829,501**	**741,426**	**5,088,075**	1,975,980	12,898	1,963,082
	₱317,013,423	**₱99,786,565**	**₱217,226,858**	₱604,053,731	₱398,632,747	₱205,420,984

The most significant risk arises from climate changes and natural disasters. These risks vary significantly in relation to the location of the risk insured by the Company, type of risks insured and in respect of commercial and business interruption insurance, by industry.

The Company also enforces a policy of actively managing and promptly pursuing claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the Company.

The Company also has limited its exposure level by imposing maximum claim amounts on certain contracts as well as the use of reinsurance arrangements in order to limit exposure to catastrophic events. The purpose of these underwriting and reinsurance strategies is to limit exposure to catastrophes to a predetermined maximum amount based on the Company's risk appetite as decided by management.

Assumptions
The principal assumption underlying the estimates is the Company's past claims development experience. This includes assumptions in respect of average claim cost, claims handling costs, claims inflation factors and claim numbers for each accident year. Judgment is used to assess the extent to which external factors such as judicial decisions and government legislation affect the estimates.

Other key assumptions include variation in interest, delays in settlement and changes in foreign currency rates.

Sensitivities
In insurance, as a rule, there may be claims filed in the current year that would attach policies issued in the previous years. This in effect makes claims provision highly sensitive as represented by the table below. Other unpredictable circumstances like legislative uncertainties make it impossible to quantify claims. Also, due to delays arising between occurrence of claims and their subsequent reporting to and settlement by the Company, the outstanding claim provisions cannot be ascertained with confidence at the end of the reporting period.

As a result, the final liabilities will change as a result of succeeding developments. Differences from recomputation of the final liabilities are taken up in subsequent year's financial statements.

The table below shows the impact of changes in certain important assumptions in general insurance business while other assumptions remain unchanged. The interrelation of these assumptions will have an important impact in the computation of the final liabilities. But these assumption changes should be done on an individual basis to show the effect on the claims liabilities. It is worthwhile mentioning that these assumptions are nonlinear and larger or smaller impacts cannot be seen from these results. Sensitivity analysis as of December 31, 2025 and 2024 follows:

	December 31, 2025			
	Change in Assumption	**Increase (decrease) on Gross Insurance Liabilities**	**Increase (decrease) on Net Insurance Liabilities**	**Increase (decrease) on Profit Before Income Tax**
Average claim costs	**-40.63%**	**(₱245,446,373)**	**(₱83,469,123)**	**₱83,469,123**
Average number of claims	**-26.23%**	**(158,449,353)**	**(53,883,985)**	**53,883,985**

	December 31, 2024			
	Change in Assumption	Increase (decrease) on Gross Insurance Liabilities	Increase (decrease) on Net Insurance Liabilities	Increase (decrease) on Profit Before Income Tax
Average claim costs	-39.78%	(₱330,553,563)	(₱93,986,216)	₱93,986,216
Average number of claims	0.95%	7,905,050	2,247,641	(2,247,641)

Loss development triangle

The table below is an exhibit that shows the development of claims over a period of time. It shows the cumulative incurred claims for each successive accident year at each reporting date, together with cumulative claims as at the current reporting period.

Accident Year	2015 and prior years	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	Total

Financial Instruments
Fair values of financial assets are estimated as follows:

	Methods and Assumptions
Cash and cash equivalents, short-term investments, insurance receivables, loans receivables, accounts receivables, advances, accrued income and other financial liabilities	Due to the short-term nature of the instruments, the fair value approximates the carrying amount as of reporting date.
Financial assets at FVTPL, equity and debt securities (shown under financial assets at FVOCI), HTC investments	Fair values are based on quoted prices within the bid-offer price range. Unlisted equity securities are valued using adjusted net asset values.
Mortgage loans (shown under loans and receivables)	The fair value approximates the carrying amount as of reporting date.

Fair value hierarchy
The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly

Level 3: Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

The table below provides the fair value hierarchy of the Company's financial assets and investment properties:

	December 31, 2025			
	Quoted prices in active markets (Level 1)	**Significant observable inputs (Level 2)**	**Significant unobservable inputs (Level 3)**	**Total**
Assets measured at fair value:

	₱1,272,389,066	₱382,135,526	₱701,354,638	₱2,355,879,230

There were no transfers between level 1 and level 2 for assets measured at fair value, and no transfers into and out of level 3 fair value measurement during 2025 and 2024.

During the year, certain financial assets at amortized cost classified within the held-to-collect business model were transferred between Level 1 and Level 2 of the fair value hierarchy. Transfers from Level 1 to Level 2 were due to the unavailability of quoted prices in active markets, while transfers from Level 2 to Level 1 occurred upon the availability of quoted market prices in active markets. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period in which the change in circumstances occurred.

Inputs used in estimating fair values of financial instruments carried at amortized cost and categorized under Level 3 include risk-free rates, applicable risk premiums, investee net asset value or net book value, and discounts for lack of marketability and lack of control.

Reconciliation of the opening and closing balances of Level 3 fair value measurements, separately disclosing gains and losses recognized in profit or loss and other comprehensive income during the comparative years are presented in the table below.

	December 31, 2025			
	Financial Assets at FVTPL	**Unquoted Equity Securities**	**Investment Properties**	**Total**
Balance as at January 1, 2025	**₱184,385,706**	**₱351,067,687**	**₱332,306,310**	**₱867,759,703**
Gains/(losses) recognized in profit or loss during the year	**(2,655,389)**	**–**	**26,023,702**	**23,368,313**
Gains recognized in other comprehensive income during the year	**–**	**291,011,205**	**–**	**291,011,205**
Balance as at December 31, 2025	**₱181,730,317**	**₱642,078,892**	**₱358,330,012**	**₱1,182,139,221**

	December 31, 2024			
	Financial Assets at FVTPL	Unquoted Equity Securities	Investment Properties	Total
Balance as at January 1, 2024	₱199,892,866	₱182,486,007	₱318,975,765	₱701,354,638
Gains recognized in profit or loss during the year	102,677,019	–	13,330,545	116,007,564
Gains recognized in other comprehensive income during the year	–	168,581,680	–	168,581,680
Redemptions/disposals	(118,184,179)	–	–	(118,184,179)
Balance as at December 31, 2024	₱184,385,706	₱351,067,687	₱332,306,310	₱867,759,703

The following table summarizes the valuation techniques and significant unobservable inputs used in the valuation for Level 3 financial assets held by the Company:

	Valuation Technique	Significant Unobservable Inputs	Inputs	
			2025	2024
Financial assets at FVTPL	Net Asset Value	Book value per share	**₱6.27**	₱6.37
Unquoted equity securities	Net Asset Value	Book value per share	**₱13.10**	₱7.90

Significant increases (decreases) in the book value per share of investee company would result in significantly higher (lower) fair value of the investments.

Financial Risk

The Company is exposed to financial risk through its financial assets and financial liabilities. In particular, the key financial risk is that the proceeds from its financial assets are not sufficient to fund the obligations arising from its insurance contracts. The most important components of this financial risk are credit risk, liquidity risk and market risk.

These risks arise from open positions in interest rate, currency and equity products, all of which are exposed to general and specific market movements. The risk that the Company primarily faces due to the nature of its investments and liabilities is interest rate risks.

Credit risk

Credit risk is a risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss.

Prior to extending credit, the Company manages its credit risk by assessing the credit quality of its counterparty. Another method by which the Company manages its credit risk exposure is through credit analysis. This is a process of assessing the credit quality of a counterparty which is a process that entails judgment.

The credit policy group reviews all information about the counterparty which may include the counterparty's statement of financial position, statements of income and other market information. The nature of the obligation is likewise considered. Based upon this analysis, the credit analyst assigns the counterparty a credit rating to determine whether or not credit may be provided.

Credit risk limit is also used to manage credit exposure which specifies exposure limits for each intermediary depending on the size of its portfolio and its ability to meet its obligation based on past experience.

The maximum exposure of the Company's financial assets to credit risk is the carrying amount of those assets except for real estate mortgage loans as follows:

	December 31, 2025			
	Carrying Amount	**Fair Value of Collateral**	**Financial Effect of collateral**	**Maximum Exposure to Credit Risk**
Loans and receivables				
Real estate mortgage loan	₱–	₱–	₱–	₱–

	December 31, 2024			
	Carrying Amount	Fair Value of Collateral	Financial Effect of collateral	Maximum Exposure to Credit Risk
Loans and receivables				
Real estate mortgage loan	₱39,642,915	₱1,663,808,000	₱39,642,915	₱–

The Company does not hold collateral held as security and other credit enhancements on its financial assets as of December 31, 2025 and 2024, except for the real estate mortgage loan. The Company has agreed to constitute and establish in favor of Fibertex Corporation a parcel of land as collateral of the loan.

In ensuring a quality investment portfolio, the Company monitors credit risk from investments using credit ratings based on Moody's for its cash in banks, short-term investments and loans and receivables.

The Company assigns the following credit quality groupings based on ratings:

Credit Quality	**Moody's**	**Stage**
High grade	Aaa to A3	1
Standard grade	Baa1 to Ba3	1
Substandard grade	B1 to Ca	2
Good standing	Unrated	1 or 2
Past due and impaired	C	3

For insurance receivables, the basis of credit quality rating is the status of the account. Credit quality rating is as follow:

Neither past due nor individually impaired
The Company classifies those accounts under current status having the following classification:

- High grade - This pertains to accounts to receivables from counterparties with strong capacity to meet its obligation and has no default in payment history.
- Medium grade - This pertains to accounts that are usually collected beyond 60 days.
- Good standing - This pertains to accounts to receivables from counterparties with average capacity to meet its obligation.

Past due but not individually impaired
These are accounts which are classified as delinquent, but the Company assesses that there is no objective evidence that these accounts are impaired as of statement of financial position date.

Individually impaired
Accounts which show evidence of impairment as of statement of financial position date.

Below is the staging parameters adopted by the Company effective January 1, 2018 in relation to its PFRS 9 adoption.

Staging Parameter	**Stage**	**Description**
Staging by Days Past Due		*Applicable to all premiums receivables and due to ceding companies*
	1	Accounts with 0 – 30 days past due
	2	Accounts with 31 – 90 days past due
	3	Accounts with days past due of 91 days and above

The table below provides information regarding the credit risk exposure of the Company by classifying financial assets according to the Company's credit ratings of the counterparties.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from either the inability to sell financial assets quickly at their fair values; or counterparty failing on repayment of a contractual obligation; or insurance liability falling due for payment earlier than expected; or inability to generate cash inflows as anticipated. The major liquidity risk confronting the Company is the daily calls on its available cash resources in respect of claims arising from insurance contracts.

The Company manages liquidity through a liquidity risk policy which determines what constitutes liquidity risk for the Company; specifies minimum proportion of funds to meet emergency calls; set up of contingency funding plans; specifies the sources of funding and the events that would trigger the plan; determines concentration of funding sources; reports liquidity risk exposures and breaches; monitoring compliance with liquidity risk policy and reviews liquidity risk policy for pertinence and changing environment.

The table below analyzes financial assets and liabilities of the Company, as well as the claims payable and related recoverable on reinsurers, into their relevant maturity groups based on the remaining period at the reporting dates to their contractual maturities or expected repayment dates.

**Inclusive of interest*

It is unusual for a company primarily transacting insurance business to predict the requirements of funding with absolute certainty as theory of probability is applied on insurance contracts to ascertain the likely provision and the time period when such liabilities will require settlement. The amounts and maturities in respect of insurance liabilities are based on management's best estimate leveraging its past experiences.

Market risk
Market risk is the risk of change in fair value of financial instruments from fluctuations in foreign exchange rates (currency risk), market interest rates (interest rate risk) and market prices (price risk), whether such change in price is caused by factors specific to the individual instrument or its issuer or factors affecting all instruments traded in the market.

The Company structures levels of market risk it accepts through a market risk policy that determines what constitutes market risk for the Company; the basis used to fair value financial assets and liabilities; asset allocation and portfolio limit structure; diversification benchmarks by type of instrument; the net exposure limits by each counterparty or group of counterparties, industry segments and market risk exposures; compliance with market risk policy and review of market risk policy for pertinence and changing environment.

a) *Currency risk*
The Company's principal transactions are carried out in Philippine peso and its exposure to foreign exchange risk arises primarily with respect to the US Dollar and Euros as it deals with foreign reinsurers in its settlement of its obligations and receipt of any claim reimbursements.

The following table shows the details of the Company's foreign currency-denominated monetary assets and their Philippine peso equivalents.

	December 31, 2025		December 31, 2024 (As restated - Note 2)	
	Original Currency	**Peso Equivalent**	Original Currency	Peso Equivalent
Cash in bank:				
US dollar-denominated	**$469,167**	**₱27,582,319**	$203,697	₱11,782,865
Euro-denominated	**€602**	**41,715**	€602	36,766
Financial assets at FVTPL:				
US dollar-denominated	**$2,414,364**	**141,940,460**	$2,416,311	139,771,510
Euro-denominated	**€33,103**	**2,292,535**	€32,411	1,978,299
Financial assets at FVOCI:				
US dollar-denominated	**$3,054,582**	**179,578,876**	$3,013,784	174,332,335
Accrued interest:				
US dollar-denominated	**$67,053**	**3,942,046**	$74,100	4,286,315
Total foreign currency-denominated assets		**₱355,377,951**		₱332,188,090

The following table demonstrates the sensitivity to a reasonably possible change in the foreign exchange rates, with all other variables held constant, of the Company's equity and net income.

	December 31, 2025		
Currency	**Change in exchange rate**	**Impact on equity Increase (decrease)**	**Impact on net income Increase (decrease)**
US Dollar	**(1.63%)**	**(₱695,035)**	**(₱5,072,556)**
	1.63%	**695,035**	**5,072,556**
Euro	**(13.46%)**	–	**(314,228)**
	13.46%	–	**314,228**

	December 31, 2024		
Currency	Change in exchange rate	Impact on equity Increase (decrease)	Impact on net income Increase (decrease)
US Dollar	(4.47%)	(₱1,370,689)	(₱13,387,812)
	4.47%	1,370,689	13,387,812
Euro	(0.71%)	–	(14,288)
	0.71%	–	14,288

The sensitivity analysis has been determined assuming that the change in foreign currency exchange rates has occurred at the reporting date and has been applied to the Company's exposure to currency risk for financial instruments in existence at that date, and all other variables, interest rates in particular, remain constant.

The changes stated represent management's assessment of reasonable possible changes in foreign exchange rates over the period until the next annual reporting date. Results of the analysis as presented in the above table represent the effects on the Company's equity and net income measured in US dollars and Euro using the closing foreign exchange rate at the reporting date.

b) *Interest rate risk*
Interest rate risk is the risk that the value/future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Floating rate instruments expose the Company to cash flow interest risk, whereas fixed interest rate instruments expose the Company to fair value risk. The Company's AFS debt securities in particular are exposed to fair value risk.

The Company's market risk policy requires it to manage interest rate risk by maintaining appropriate mix of fixed and variable rate instruments. The policy also requires it to manage the maturities of interest-bearing financial assets and interest-bearing financial liabilities.

The following tables show information relating to the Company's financial instruments which are subject to interest rates based on maturity profile:

	December 31, 2025					
	Interest rate (%)	**Maturity**				
		Within a year	**1-3 years**	**3-5 years**	**Over 5 years**	**Total**
Loans and receivables						
Real estate mortgage loan	**5%**	**₱–**	**₱–**	**₱–**	**₱–**	**₱–**
Loans receivables	**7%**	**11,990,325**	**6,361,993**	**–**	**–**	**18,352,318**

	December 31, 2024					
	Interest rate (%)	Maturity				
		Within a year	1-3 years	3-5 years	Over 5 years	Total
Loans and receivables						
Real estate mortgage loan	5%	₱11,408,341	₱27,036,947	₱1,197,627	₱–	₱39,642,915
Loans receivables	7%	11,262,707	18,352,319	–	–	29,615,026

The analysis below is performed for reasonably possible movements in key variables with all other variables held constant, showing the impact on equity of revaluing fixed rate FVOCI debt securities. The correlation of variables will have a significant effect in determining the ultimate impact on interest rate risk, but to demonstrate the impact due to changes in variables, variables had to be changed on an individual basis.

	December 31, 2025	
	Change in variables	**Impact on equity Increase (decrease)**
FVOCI debt securities	**+50 basis points**	**(₱7,506,054)**
	–50 basis points	**10,119,921**

	December 31, 2024	
	Change in variables	Impact on equity Increase (decrease)
FVOCI debt securities	+50 basis points	(₱7,591,635)
	–50 basis points	15,757,760

The sensitivity analysis above has been determined assuming that the change in interest rates has occurred at the reporting date and has been applied to the exposure to interest rate risk for interest bearing financial instruments in existence at that date. The increase or decrease in basis points represents management's assessment of a reasonably possible change in interest rates over the period until the next annual reporting date.

c) *Price risk*

The Company's price risk exposure at year end relates to financial assets and liabilities whose values will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk, principally, its FVOCI equity financial assets.

Such investment securities are subject to price risk due to changes in market values of instruments arising either from factors specific to individual instruments or their issuers or factors affecting all instruments traded in the market.

The Company's market risk policy requires it to manage such risks by setting and monitoring objectives and constraints on investments; diversification plan; limits on investment in each sector and market.

The analysis below is performed for reasonably possible movements in the key variable, with all other variables held constant, showing the impact on equity that reflects changes in fair value of FVOCI financial assets on the Company's listed equity securities.

	December 31, 2025	
	Change in equity prices	**Impact on equity Increase (decrease)**
Stock price	**+9.46%**	**₱65,601,829**
Stock price	**-9.46%**	**(65,601,829)**

	December 31, 2024	
	Change in equity prices	Impact on equity Increase (decrease)
Stock price	+7.34%	₱45,445,253
Stock price	-7.34%	(45,445,253)

30. Current and Non-current Classification

The Company’s classification of its accounts is as follows:

	2025			2024 (As restated - Note 2)			January 1, 2024 (As restated - Note 2)		
	Current	**Non-current**	**Total**	Current	Non-current	Total	Current	Non-current	Total

31. Related Party Transactions

Parties are related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions and the parties are subject to common control or common significant influence. Related parties may be individual or corporate entities. In considering each possible related entity relationship, attention is directed to the substance of the relationship and not merely the legal form.

Summary of significant transactions with related parties in the ordinary course of business follows:

Summary of Benefits of Key Management Personnel

Key management personnel are employees who have the authority to directly or indirectly plan and control business operations. Top business management usually includes the President, Chief Operating Officer, as well as a number of Vice-presidents of the Company. These positions are all considered key management because they have the power to influence and direct company operations.

The summary of benefits of key management personnel is as follows:

	2025	2024
Short-term benefits	**₱14,001,741**	₱14,457,678
Post-employment benefits	**20,235,815**	22,375,295
	₱34,237,556	₱36,832,973

32. **Notes to Statements of Cash Flows**

Details of non-cash investing activities follow:

	2025	2024 (As restated - Note 2)
Decrease in financial assets at FVOCI due to mark-to-market valuation (Note 6)	**(₱400,469,966)**	₱315,577,752

33. **Events after the Reporting Period**

BIR tax assessment
On June 17, 2026, the Company received a Notice of Discrepancy dated June 15, 2026 from the Bureau of Internal Revenue (BIR), Regional District Office No. 125 Large Taxpayers Division, covering deficiency tax assessments for taxable year 2024. The assessed deficiency taxes were paid on June 15, 2026. Subsequently, the Company received a Termination Letter dated June 30, 2026, confirming the closure of the audit investigation, which was received by the Company on July 16, 2026.

34. **Supplementary Information Required Under RR 15-2010**

In compliance with the requirements set forth by RR 15-2010 hereunder are the information on taxes and license fees paid or accrued during the taxable year.

Value-added Tax (VAT)

a. The Company is VAT-registered and declared a VAT output tax of ₱57,538,962 for the year. This declaration is based on total Vatable sales of ₱479,491,348, which includes direct premiums amounting to ₱425,730,936, rental income of ₱17,612,724, commission income of ₱33,780,847, interest income of ₱2,174,700, and other income totaling ₱192,141.

   The Company has zero-rated and exempt sales amounting to ₱36,701,310 and ₱13,308,117, respectively pursuant to Section 106(A)(2), Section 108(B) and Section 109 of the Tax Code, as amended.

b. The amount of input VAT taxes claimed are broken down as follows:

Balance at January 1	₱–
Current year's purchases/payments:	
Capital goods	1,505,423
Goods other than capital goods	524,367
Services paid lodged under general expenses	13,760,933
	15,790,723
Input VAT applied against Output VAT	(15,382,550)
Input VAT allocable to exempt sale	(408,173)
Balance at December 31	₱–

c. Taxes relating to non-life insurance policies that have been shifted or passed on to the policyholders and are not recognized in the statement of comprehensive income are as follows:

The total documentary stamp tax (DST) affixed on insurance policies for the year amounted to ₱57,539,539.

Other taxes during the year which represent the total accrued and paid follow:

Premium tax	₱266,162
Fire service tax	4,659,347
	₱4,925,509

d. The Company did not incur any excise tax in 2025.

e. Details of other taxes, local and national, including real estate taxes, license and permit fees lodged under the 'Taxes and licenses' account follow:

National:

Interests and penalties	₱–
IC fees	1,622,120
